56 RINKS ENTER LOCAL PINE SPEL

ST. PAUL SALES AND SERVICE TROPHY FOR MAIN EVENT

Also Tammie, standing on left with the main event trophy for St. Paul's 53rd Annual Pine Spel was presented to the Edmonton rink which won it. Kaveling front, they are, left to right, skip Ron Pash, Dave Hansen, Lawrence Sigurdson, second and John Goodfellow. The rink was entered in the name of Hansen. The St. Paul rink who made them work for the prize is now standing behind: Ron Tammie, John Sebastian, J. G. Devine and Jack Tammie. They placed second in the Industrial event.

They won the main prize the best way having to go the full rink and against Ron Tammie who gave them a run for their money. The final score was 4-1.

Tammie was supported by John Sebastian in third position. G. Devine scored and Jack Tammie lost.

The main event final was the game of the day to watch. Tammie pulled up the chain to score and Hansen came back with a shot to tie it up. Tammie then scored two ahead in the fifth, but let them go in the sixth when Hansen cracked in to tie it even again.

Tammie scored the seventh for a one advantage, while the night was finished, but in the sixth it was all decided as Hansen scored in the sixth and gave up two big points.

At the same time Hansen, changed for Tammie. He slipped and Hansen scored in the seventh was unable to make a shot which Hansen scored a possible double by hitting and gave up two big points.

Going into the final end with a two-point lead, skip Pash kept the old hand-on game and kept the house clear until the closing section for one point.

The architect's plan reads in which form this would be the house clear until the closing section for one point.

Number Doherty of Vegreville won third place and had a two-point lead in the final end of St. Paul came into the rink.

SECOND EVENT

A rink from Bonaville, skipped by Ernie Brooks and J. H. Hager, lost to the Professional rink in the second round to beat in the semi-final.

The rink was defeated in the semi-final by the Professional rink in the second round to beat in the semi-final.

City Rink Top

An Edmonton entry by Dave Hansen and skipper Ron Pash outscored five rinks participating in the St. Paul 1963 annual Pine Spel over the weekend to win the St. Paul Sales and Service trophy and replica, up for competition in the industrial event.

The Edmonton club went through the four days of intense competition in extreme cold temperatures without a loss in six starts. Ron Pash was skipper, Dave Hansen third, Lawrence Sigurdson second and John Goodfellow fourth.

They won the main prize the best way having to go the full rink and against Ron Tammie who gave them a run for their money. The final score was 4-1.

Recreation Society Incorporated Under The Societies Act

At a recent meeting of the St. Paul Chamber of Commerce, control of the St. Paul Recreation Society was turned over to an autonomous organization of its own.

The first constituted meeting was held last week where a "Quorum" — committee of four — was named to take over leadership, along with the duty stated directors who will form the executive and pay their meeting body.

Another big step was taken in the raising part of the fund, which will cover cost of a building required by the Town for the reconstruction of the rink.

The fund raising campaign got under way at a Chamber meeting, recently, when 25 members pledged time each to open the fund. A full list of names is being prepared.

The direction of the organization will be completed with one member at large and one Director from each organization.

ECONOMICS

While it is true that Canada's economy is growing, it is not growing as fast as it could be. The main reason for this is that the economy is not as diversified as it should be. The main problem is that the economy is too heavily dependent on the export of raw materials and primary products. This makes the economy very vulnerable to changes in the world market. The solution is to diversify the economy by developing new industries and services. This will help to create new jobs and increase the country's economic strength.

What are the determinants of Canada's economic growth? The main factors are the size of the labor force, the amount of capital investment, and the efficiency of the economy. The labor force is growing, but the amount of capital investment is not keeping pace. This is because the government has been spending too much on social programs and not enough on infrastructure and research and development. The efficiency of the economy is also a problem. The government has been interfering too much in the economy, which has led to inefficiency and waste. The solution is to reduce government intervention and encourage private enterprise.

What are the prospects for Canada's economic future? The prospects are good, but only if the government takes the right steps. The government must reduce its spending and increase its investment in infrastructure and research and development. It must also encourage private enterprise and reduce its intervention in the economy. If the government does this, Canada's economy will grow and the country will become a more prosperous and powerful nation.

In the boys' game, action was fast and furious with two Glen players finding out the hard way that the Glen team is not to be trifled with. Glen won 21-10. In the girls' game, action was also fast and furious. Glen won 15-10. The girls' game was a close one, but Glen's defense was too strong for the opposition. Glen's players were very good and they played very hard. They were very determined to win and they did. Glen is a very good team and they are very proud of their victory.

The purpose of cooking vegetables is to retain the vitamins and to retain the starch. The starch is the most important part of the vegetable. It is the source of energy. The starch is also the source of fiber. Fiber is important for the health of the digestive system. Fiber helps to prevent constipation and other digestive problems. Fiber also helps to lower cholesterol and blood pressure. Fiber is a very important part of a healthy diet.

For Better Or For Worse

An Editorial From The Financial Post

How will the Ottawa shambles affect business in Canada? All periods of uncertainty offer attractive opportunities for speculators who are willing to bet on the wisdom of their forecasts against that of other people. But for corporation managers and those who don't care to speculate, periods of uncertainty are usually unpleasant with far-reaching slow-down effects in the general economy.

In the immediate situation, many will think that any move which will clear the air and get Parliament moving, and the government making up its mind, will be to the good. Certainly, the unwillingness or inability of the Diefenbaker government to make decisions and to get ahead with legislation has resulted in stalling important policy decisions in many areas of business.

More dramatic may be the foreign reaction to Canadian goings-on. The old word "Confidence" is very real and major factor in what happens to us. If foreign money thinks an election is likely to produce another stalemate and to prolong the period of indecision, then we can expect substantial and prompt withdrawals of money from this country. This in turn will hit the stock and bond markets, and will affect exchange reserves. Though these are now in relatively good shape, major withdrawals could push us back into another period of trouble with another dose of tight money, high interest rates, probably more "austerity" measures and more slowdown in business.

There are some reasons why foreign money particularly will view our current state of politics with special concern. The strength of the Social Credit group - or lack of it - after another election very properly concerns money. Whenever there is a change in the economic or monetary theory they take, or if the government takes any action which they consider to be a step towards a more radical economic policy. For two decades foreign money has been coming here as if Niagara because we seemed to offer fewer hazards than Honduras and Venezuela, Nigeria and Pakistan.

But now, how will foreign money gauge the results of an election? More stalemate? A return to effective government? A still more powerful group of Social Credit weirds? The guessing about the election outcome will have very marked effects on the business climate in the months ahead. Not in a very long time has there been an election with so much economic impact - for better or for worse.

An Honored Guest Visits

It is always significant to note the visit of a national dignitary to our town. Last week the local unit of the St. Paul Junior Chamber of Commerce (Jaycees) were hosts to visiting National Jaycee President Bernard Stevens.

The fact that a National President chose St. Paul as a part of call to one of six units visited in the entire province, where there are over twenty openings, is a distinct honor.

Probably the reason he came here is because he is aware of the fine record the St. Paul Jaycees have established in over 25 years of organizations.

The long list of achievements credited to the Jaycees was described by one of the Charter members who was invited as a guest speaker.

We would like to reiterate the words of the Mayor who said that, "although we don't always acknowledge directly the work the Jaycees are doing we are aware of the contributions they are making to St. Paul and encourage them to continue the promotion of their worthwhile community projects."

CURIOUSITY
When you have been told that a person is a "psycho" or "crazy" you are likely to be curious to know what it means. The word "psycho" is a colloquialism for "crazy" or "mentally ill." It is a term that is often used in a derogatory manner, but it is important to understand that it is a medical term, not a judgment. A person who is "psycho" is someone who has a mental illness, which is a condition that affects the way a person thinks, feels, and behaves. It is a condition that can be treated, and it is important to seek help if you or someone you know is experiencing symptoms of a mental illness.

When you bank

we try to be a little more human about it

Back in the old days, young people were supposed to be seen and not heard. They were expected to keep their heads in a piggy bank and not worry about real bank accounts until they grew up.

Noradays, children are as welcome in The Bank as grownups, and just as likely to have savings accounts with money in them too!

The Bank deal with young people like this every day—and think of them as your special customers, worthy of our most attentive service.

Have your youngsters drop into the nearest branch of The Bank, or come in yourself, and see. You'll find that our people really make the happy difference in banking.

HOW MANY ARE BANK CUSTOMERS?

A safe guess would be every one of them? That's because, in Canada, practically everybody has regular dealings with a chartered bank. Deposits accounts number more than 18 1/2 million - or better than one for every adult. And on the books of the banks at any one time are 1,800,000 loans for just about every personal and commercial purpose. Through 6,000 branches, from one end of the country to the other, the chartered banks bring a full banking service within the reach of everyone.

CHICKEN FEEDS ARE MEDICATED TO PROTECT AGAINST COCCIDIOSIS

Chicken and poultry feeds are medicated with a powerful, safe, and effective medicine to protect against coccidiosis, a deadly disease which causes millions of chickens to die each year. This medicine is added to the feed in a very small amount and it keeps the chickens healthy and productive. It is the only medicine that has been proven to be effective against coccidiosis. "WHEN SHE'S THAWING" OUTSIDE, a teller just naturally looks ahead to spring seeding. But you have to be careful - by thinking too far ahead you might forget things you should keep in between. like filling up storage tanks before the roads become impassable.

NOW is the time to fill TANKS!
To protect our roads, highway tanks are enclosed during the spring break-up. But this need not break up your plans for early spring seeding if you fill up storage tanks early!

BE SURE YOUR TANKS ARE READY WHEN YOU ARE READY FOR SPRING WORK. ORDER EARLY!!

Vote For Canada April 8

In 1957, 75 percent of eligible voters cast ballots in the General Election. In 1959, this rose to 79.5 percent and, in 1962, 78.5 percent of the 9,800,000 eligible voters cast ballots. These figures are most creditable indeed but leave no room for complacency even with this high rate of participation there were still more than 2 million Canadians who failed to exercise the franchise on June 18, 1962. There is still a lot of room for improvement.

The measure of our appreciation of our democratic form of government can be found in the percentage of eligible voters who cast their ballots on election day. Democracy - true democracy - cannot survive indifference. If a muscle is not used it atrophies. In the same way, if the rights and privileges of democracy are not exercised by the public then they, too, will wither away and die. This is the challenge that faces us today as we approach another election on April 8. Here is another test of the vitality of democracy. Here will be counted, once again, those who recognize the rights of democracy and accept the responsibility of exercising that right. A continued effort must be made to ensure as close to full participation as possible.

It is not enough merely to mark a ballot. Canadian men and women should take this opportunity to express themselves on the merits of the election and the personalities involved. Participation for the loyal Canadian in politics starts with the nomination of candidates, and here citizens can play an important role in seeing to it that knowledgeable, capable and individualistic candidates are chosen to represent each party in each riding. In this age of communication there is little, if any, excuse for not knowing a great deal about the candidates, about their characters, about their mental ability and about the policies which they advocate. By means of TV, radio, press, platform and the rest, we are provided with many excellent opportunities to assess the relative merits of the parties and the candidates. Their spokesmen, their promises, their policies, all are available to the public. It is the responsibility of the citizen to make use of these opportunities. Ignorance of political matters in this day and age is strictly culpable.

Canadians have been subjected to a barrage of views, opinions and promises on every aspect of the Canadian economy. This is not something to be deplored but applauded. This is democracy in action! It places upon the individual voter the responsibility of making his own choice. He must weigh the evidence and then decide, in the interest of Canada as a whole, what arguments and what program can best help the economic growth of our country.

There are some basic economic facts which must be borne in mind in assessing the statements which are made and the benefits which are promised. We should remember, first of all, that we cannot get something for nothing. Government programs are financed from the pockets of the taxpayer and any thing promised by government must be paid for out of the pockets of all of the taxpayers eventually. Secondly, it should be remembered that increases in production mean nothing if there is not a market for the things that are produced. The products that are produced must be sold. If they are not sold, the producer should not be so burdened by costs that it is impossible for him to compete in domestic and foreign markets with producers in other countries. Thirdly, it should be remembered that profits are a measure of the health and efficiency of a business. A company which fails to make a profit or which makes an insufficient profit to keep abreast of current technological change, must eventually die with a consequent loss of employment to Canadians. Fourthly, and this is perhaps most important of all, if we do not get back on the rails economically, we must be a people free and independent, with a high degree of initiative. If Canadians come to be dependent on government for their economic well-being, self-reliance will run dry. The pages of history are filled with the stories of the rise and fall of empires. Once a country forsakes the principles upon which its progress and development were built, then it grows fat and slothful and falls into decay.

We remind you of the responsibility, privilege and opportunity which is yours to be informed concerning the issues and candidates, to vote on April 8.

Built On Three Floor Levels

In announcing the official opening of its new building, St. Paul Radio & TV has opened a new chapter in the history of the city's largest and most modern electronic store. The new building, located at the corner of 10th Avenue and 10th Street, is a three-story structure which will house the store's expanded inventory of electronic goods and services. The building's design is modern and functional, with large windows that allow natural light to illuminate the interior. The store's location is convenient for customers, and the new building will provide a more comfortable shopping environment. The store's inventory includes a wide range of electronic goods, including radios, televisions, and record players. The store's services include repairs and consultations. The new building is a testament to the store's commitment to providing the best possible shopping experience for its customers.

Citizenship Minister Urges Canadian Indians To Vote

The Hon. Richard A. Hall, Minister of Citizenship and Immigration, has urged Canadian Indians to vote in the federal election on May 20. He said that it was important for them to exercise their right to vote, as it would help to ensure that their interests were represented in the government. He also said that the election was a chance for them to make their voices heard on issues that affected them. He urged them to go to the polls and vote for the candidate of their choice.

Election Campaign

End of the election campaign will permit Canadians to get back to watching their favorite television programs without fear of interruption by political commercials. Newspapers will be able to devote to real news the space that has been occupied during the past weeks by reports of political meetings and the charges and counter-charges made by party leaders and candidates.

The Government can now begin to deal with the most of national business left unfinished when the 25th parliament was dissolved. Pressing matters to be discussed and settled by the new parliament include the government's estimates and the budget, the distribution of parliamentary seats, implementation of at least some of the recommendations made by the commissions on federal government, government spending and Canadian publications. None of these matters received much attention from political speakers during the campaign. Political matters, however, keep speakers harping on subjects that are sensational or can be made to appear so, rather than on the more important but usually duller points of past and future policies.

Except for the manifest indication of many Canadian voters about which party to support, there has been nothing very novel or exciting about the campaign. What excitement there has been, however, before the campaign really began, with the defection of some members of the cabinet from Mr. Diefenbaker. This could not easily be made a campaign issue. The Conservatives preferred to forget it and their opponents in the other parties perhaps felt that if they made much of the incident it might do them as much harm as good.

Social Credit leader Robert Thompson introduced one novelty into the campaign with his suggestion that Canada might build another sawery, this time Hudson's Bay across the prairies. No one seems to have taken his proposal seriously and it was soon forgotten. Another scheme for spending the taxpayers' funds also seems to have been allowed to pass from public consciousness, although Mr. Diefenbaker did mention it when he was speaking to a PEI audience. This was the plan to build a roadway to the island from the New Brunswick coast.

Roddy interference with an election meeting of Mr. Pearson in Vancouver and the threat to blow up the election train of Prime Minister Diefenbaker as it travelled through Quebec had little to do with the merits of either leader's platform. The incidents merely proved that both leaders are unpopular with some people. Such incidents are almost invariably the work of a small group of cranks.

Bombing of the Montreal income tax office might have been more generally popular, since the deadline for personal income returns is near at hand and effect for the hard-working employees of the department takes its seasonal course downward. But, whether the bombing was meant as a protest against income tax or as a demonstration of the provincial separatists, it was an in-effective gesture. No one was injured and the income-tax records remained unscathed.

Canada's Poor Libraries

While educators, governments and industry are shouting about the need for more and better educational facilities, public libraries — one of the most important aspects of public education — are not getting the attention they deserve, says Beatrice Riddell in The Financial Post. Last year, nearly \$2000 was spent by all levels of government on formal education and vocational training vs. about \$20 million mostly by municipalities, on public libraries. More than 20 percent of Canada's population has no access to free public library service and less than half the population is getting service that meets minimum standards of the International Library Association. Annual spending on books is only about 10¢ per capita, with the result that most Canadian public libraries are woefully understocked. In fact total public library stock in 1960 (last year, for which the best figures are available) was about 13.9 million books — about half the minimum required to serve Canadians adequately.

FLASH FLOOD INUNDATES MAIN STREET

A flash flood which erupted Saturday afternoon from rain off the north end of town, poured inundated the main street of the intersection between Bank's East and the Party 90 station. Here you see a rushing through the flood-enslaved main street which slowed down traffic in the late afternoon.

Only an Electric Kitchen is really modern

Cook with an electric range and you'll want the convenience of all the other electric appliances too!

Electric cooking is pleasant cooking - clean, cool, comfortable and automatic. An electric home means you enjoy the garden-fresh flavor of vegetables all year round. An electric dishwasher cuts hours of housework every day. Small electric appliances are big labor-savers - frypans, toasters, and percolators.

Last year this Dunlop Gold Seal would have cost you \$22.50

Today the price is \$17.44. Why?

It's a first time Dunlop Gold Seal with a 1963 tread pattern. This is 1963 - and now Dunlop is too up to produce a new tire. To make way for it, we have to sell off between 200 to 300 like this. If you want to wait till the new 1963 Dunlop Gold Seal is available - fine. But if you want an honest bargain on a 1963 Gold Seal, see your dealer now.

Canadian Indian Population Increases In Last Decade

The Indian population of Canada has increased by 10 per cent in the last decade, according to a report by the Minister of Indian Affairs, J. G. Bennett.

The report, which was released last week, shows that the Indian population in Canada was 250,000 in 1952 and has risen to 275,000 in 1962.

The increase is attributed to a combination of factors, including a rise in the birth rate and a decrease in the death rate.

The report also shows that the Indian population is becoming more urbanized, with a significant increase in the number of Indians living in cities and towns.

The Minister of Indian Affairs, J. G. Bennett, commented on the report, saying that it was a reflection of the progress made by the Indian community.

Go Places! Go Navy!

The first leader has an important role to play in the success of a team, and the Navy is no exception. The first leader is the one who sets the example and inspires the team to follow.

The first leader is also the one who is responsible for the success or failure of the team. It is their duty to lead by example and to inspire the team to achieve their goals.

Highway Cause of Mishap

An accident which occurred on Highway 28 last week might well be blamed on the condition of the road. It is not the first accident blamed on the road east of here.

It provides the opportunity and occasion to again focus attention on it so that the powers that be can start thinking seriously about accelerating their program to have it rebuilt to a standard which is adequate and safe to travel on.

On the average day, a person standing in St. Paul can look east and see one long cloud of foggy dust floating in the air as if there was a forest fire on the horizon. But, no it is only Highway 28 where the least amount of traffic raises uncontrollable clouds of heavy dust and gravel to blind motorists and cut vision down to zero.

When it rains, the slightest drop turns it to mud and mire while a ray of sun turns it into a fog. It is difficult to expect, even the most careful and cautious driver to stay out of trouble. There are enough difficult situations arising out of driving under normal conditions without increasing the hazards with this kind of road.

Good Car Roaden

The St. Paul Jaycees and the Highway Traffic Safety Board are to be congratulated for promoting the Teenage Car Roaden in St. Paul.

The sponsors who paid \$5.00 to encourage the young drivers to take part are looking forward to the future and providing the means and ways of education to cut down traffic accidents and the loss of life on our highways.

The Road-o-e provides the opportunity for the teenager to demonstrate his acquired driving skill while showing the responsible citizens of the community the need for driver education.

The overall feeling of the Road-o-e impresses safe driving habits, knowledge and attitudes in the mind of the teenager. Concern for the passenger, the pedestrian as well as the driver can be taught to the young drivers through skillful handling of the automobile.

The purpose and principles of the Road-o-e were well expressed on St. Paul's main street and for that, our congratulations to the Jaycees as young men themselves are taking an interest in the younger man of the community.

Dogs To Be Confined

We know dog lovers will not like this, but we are in complete accordance with the Town Council when they declared and announced last week that severe steps will be taken to control dogs in the town limits.

The question of dogs has forever been a headache to officials and hard to control without offending. However, we believe the time has come when effective control becomes imperative and the measures adopted justified.

For the record and those who may not have noticed the advertisement in last week's (May 16) issue, all dogs housed in the town are now required to be permitted on the streets without full control of their owners and under leash if necessary.

Dog owners in the city are now being confronted with the necessity of tying their dogs to prevent them from roaming and the introduction of this regulation in St. Paul should not create any resentment.

We are looking forward to the enforcement of these laws and the town where barking dogs don't scare children and women and trespass over our landscapes.

M.S.I. OFFERS MORE
M.S.I. pre-paid medical care provides the fullest coverage available to Albertans. The reason why nearly half the population—600,000 Albertans—are

Now, with the help of government subsidy where needed, most Albertans, regardless of income, can afford the benefits of M.S.I. coverage—and fees can afford to be without such coverage.

Applicants do not require a medical examination, and there is no exclusion of pre-existing conditions or ailments. There is no age limit—there is no red tape. No forms to complete, free choice of doctor, and no waiting periods. The program is portable and transferable to other medical plans in Canada and parts of the United States without lapse of coverage.

Developed for Albertans by the Medical Society, M.S.I. is a democratic, non-profit organization.

If you have no taxable income, or your taxable income is less than \$500 you are eligible. For more information, contact the Alberta Medical Plan, Box 100, 100 St. George Street, Edmonton, Alberta T2G 2E9.

SEP. 20, 1983 WILL HAVE AN EFFECTIVE DATE FROM SEP. 1, 1982. IF YOU ARE CURRENTLY COVERED BY ANOTHER MEDICAL PLAN, YOU WILL BE COVERED BY THE ALBERTA MEDICAL PLAN.

Speed Limits

Unchanged

Although the speed limit on Alberta Highway 63 is to be made this summer, the law that would allow it to be raised to 70 mph has been introduced.

Legislative assembly was a very hot winter permitting the government to pass the results suggest the recommitment of the bill to the legislature up to 70 mph on four later districts.

It was planned to increase the speed limit on the arterial highway from 60 to 70 mph as well as on the other roads taking place on the entire highway. The bill will probably be early fall, as the plan is to be introduced in the legislature on the highway and

Town Refuses Legislate On Store Closing Hours

Confusion Pointed Out

Chamber of Commerce president Paul Devlin took a petition on behalf of local merchants and his organization, asking that the Town of St. Paul enact a new law regulating store hours and closing days at Monday night, stilling.

The petition was drafted after a committee of five merchants carried out a survey of local stores to determine their wishes. The survey indicated Monday closing was popular with 80 per cent of the stores, with Friday night closing in second place.

It was decided that 85 per cent of firms concerned answered the questionnaire, with the greater majority wanting Monday closure. Evening shopping preference was for Thursday by a slim majority of one vote, with Friday night coming in second place.

The town of responsibility for the survey was given to the town council. The town council is expected to make a decision on the petition by Friday night coming in second place.

10 passed on the Peking, where
 11 he received 100 million ren-
 12 miners at the current ex-
 13 change rate. But it's evok-
 14 ing a pain from Easterners
 15 who remember the humili-
 16 tation in the dead.
 17
 18 "Terrible men want to know
 19 how we are doing," says
 20 "I've told them... have told
 21 they are going to be taken
 22 by increased imports from China."
 23 And Okunaka will have heavy
 24 and some fact talking to some-
 25 kind customers like Japan
 26 and Hong Kong, who "voluntarily
 27 restrict their sales so we don't
 28 look with joy at new in-
 29 creased growth in China."

New School Built At Sugar

Built At Sugar

The School Committee of the County of St. Louis has made a request to the State Board of Education to rebuild the Sugar School destroyed by fire on the same kind of construction as the three-room school in Sny-Leban, which was destroyed by fire on Beaver Island, Michigan, during the 1920s.

Some element of controversy existed in 1920, was destroyed as to whether or not it should be rebuilt.

The newly called a special session of the State Board of Education on the subject of rebuilding the Sugar School. The board of the State Board of Education to rebuild the Sugar School. The board of the State Board of Education to rebuild the Sugar School.

North Park Community Honors Pioneer Mrs. S. Burstad

A community gathering was held at the North Park Club on August 26th to honor Mrs. S. Burstad on the occasion of her 80th birthday. The gathering was presided over by Mrs. Burstad's daughter, Mrs. J. Burstad, and her son, Mr. J. Burstad. The guests included many friends and relatives of the honoree. The evening was a most enjoyable one, with many songs and speeches. Mrs. Burstad was born in Norway and has lived in Canada for many years. She is a devoted mother and a very active member of the community.

WARRINGTON WOMAN CALGARY AQUARIUM MILLIONTH VISITOR

Miss Warrington, a woman from Calgary, has become the millionth visitor to the Calgary Aquarium. She was accompanied by her family and a group of friends. The aquarium is a popular attraction in Calgary and has received many visitors since it opened. The aquarium is a fine example of modern architecture and is a great place to spend a day with the family.

Liberal Party Welcomes Power Inquiry

The Liberal Party has welcomed a power inquiry into the operations of the Alberta Electric System. The inquiry is being conducted by a committee of the House of Commons. The Liberal Party believes that the inquiry is necessary to ensure that the public interest is protected. The inquiry will look into the financial and operational aspects of the system. The Liberal Party hopes that the inquiry will result in reforms that will improve the service to the public.

Died Of Suffocation.

Inquest Held In Death Of E. Belzil

A panel of six jurists sitting on an inquest to determine the cause of the death of a young man of this district killed July 11th, ruled that he died of suffocation and lack of oxygen after an accident involved his tractor and a delivery truck driven by Mrs. Isabelle Gross, a neighbor.

The jury gave its verdict in a closed courtroom after about twenty minutes of deliberation and read its decision as follows:

First witness to testify was Mrs. Isabelle Gross, who said she was driving a Ford truck when it struck the tractor and killed E. Belzil. The jurists were called in the second court session.

Mr. Isaac M. Belzil, owner of the tractor and dead, was the second witness. He said the overturned machine was on the level road, but he did not know what caused the machine to turn over.

Other witnesses included Mrs. Gross, who said she was driving the truck when it struck the tractor and killed E. Belzil. She said she was driving the truck when it struck the tractor and killed E. Belzil.

Torcia Carson Becomes Bride Of Peter Pandolfi At Winnipeg

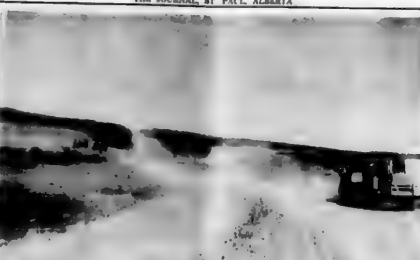

Winnipeg—Torcia Carson, 24, of St. Paul, Minn., became the bride of Peter Pandolfi, 26, of Winnipeg, at the St. Paul Hotel here today.

The bride is the only child of Mr. and Mrs. Edward Carson, who lived in the last decade in St. Paul. She was the only daughter to have the hospital home and died in the city.

Mr. Pandolfi is a graduate of the University of Minnesota and is now a member of the St. Paul Hotel.

Questions Surfacing

By Vilna Correspondent

It is time a critical look was given the new road surfacing used on a stretch of Highway 28 between Bellis and Ashmont. The portion done last year was done under rainy conditions that would disorient a solar. And everybody was willing to cheer the soggy road crew for a job, though far below the standards we can expect for the thousands of dollars, for a job done and a hard surface roadway completed.

But the stretch built this year cannot be excused in this fashion. It resembles more the pit where a road crew did a bellyflop than a roadway. Travelers invariably stop to check their wheels and their tires to find what throws their car about so much. The rut is so pronounced and so numerous that the car is swayed as badly as an unexpected flat. It is even rumoured, and with much reason, that the recent tragedy at Coche Lake where eight people were killed may have been the direct result of the false sense of security a hardtop gave the drivers.

It appears that a soil cement is being used instead of the tar-gravel combination on other roads. If this is the sort of thing soil cement is made of, it is imperative that the Highway Department take immediate steps to bar it from further application. It not only is condemned for its inability to lay flat, but great stretches of both last year's application and this year's have peeled off the base and require a full-time road crew with tar pots to repair. It was a costly experiment, let's take it off the road before more people die trying to ride the treacherous ridges. If there comes a sleet in the late Fall, you can start chalking up new deaths.

Protect Your Children

Everyone should guard against infectious diseases, for though they may remain temporarily hidden they are ever ready to strike. Sickness and death from tetanus, poliomyelitis, shingles, diphtheria and whooping cough, for example, can be prevented since effective vaccines are available to combat these diseases. Many other vaccines are being developed in different parts of the world, and new ones are being developed.

Every child who has the best possible protection against diseases to which he may be exposed. A visit to your physician or local immunization clinic will give you peace of mind, for prevention is better than cure.

Each year the Health League of Canada, through its sponsorship of National Immunization Week, September 22-28, reminds us of our responsibility. We are happy to endorse this campaign. "Be Wise — Immunize."

Pedestrian Pleasure

Proponents of uniformity are always finding difficulties where difficulties do not exist. "It would be easier to administer. It would be simpler for everyone if..." This is the way they talk. Causing a lot of stir lately is the suggestion that there should be uniform store hours. When you would do it, you know, say the proponents of uniformity, what stores are open when.

"Some Stores Opening Monday," says the Nelson, B.C., Adviser. Does this necessarily throw a wrench into the thinking of Nelson shoppers? Not a bit of it. The paper says that no details could be learned Wednesday before the paper would be able to print what store hours would remain open. But it adds: "You can walk about, perhaps, and find out the answers."

Walking about down through the business section, down a spot of window shopping and dropping in on an occasional store, is a good way to spend a Monday. Pedestrian pleasure is underrated these days.

Fire Prevention

By E. L. Bridges

The term "fire prevention" is often used in a casual way, but it is a very important one. It is the only way to keep a fire from starting in the first place. It is the only way to keep a fire from spreading. It is the only way to keep a fire from causing damage to property. It is the only way to keep a fire from causing loss of life.

MARRIED IN UNITED CHURCH

Pictured above are Mr. and Mrs. Johnny Krawinkel, principals of a lovely wedding held recently in St. Paul. The bride is the former Joyce Krawinkel, daughter of Mr. and Mrs. John Krawinkel of Brimley and the groom is the son of Mr. and Mrs. Abraham Krawinkel of St. Paul. The couple will make their home in St. Paul.

IN MEMORIAM

Days we suffered still come over me
Friends may think the wound is healed
In memory of my beloved husband, John, who passed away suddenly October 18th, 1962.
You are gone, but not forgotten
And on dawn number 272, in my lonely hours of thinking,
Thoughts of you are always near.
Sincerely,
Gladys Krawinkel

Night Shopping Resolved

Merchants of St. Paul got down to brass tacks Monday evening with the full realization that the will of St. Paul was at stake and a decision on the contentious night shopping issue had to be made.

The situation was resolved by a special meeting, strongly enough called at the initiative of an individual who did not partake in the discussions nor exercise a vote, BUT MADE A REMARKABLE JOB of helping to settle the problem.

From a purely objective point of view he laid the cards on the table and received a measure of full co-operation from the parties involved.

The discussion was orderly and reasonable. Each member was given the opportunity to express his views and advised that a vote would be taken, and no matter what the outcome was duty bound to go along with the majority regardless of personal feelings.

The discussion which ensued was relevant to the well being of St. Paul and presented a front of unanimity without the element of confusion which existed for customers until then.

The matter is not completely resolved. It has to go to the Town where assurance has been given that the Council would act on the recommendations and pass a by-law which would enforce the decision.

We sincerely hope that the merchants have realized through the unpleasant experience of this matter that the solution is in the best interest of the town and they will abide by the rulings for the sake of progress and prosperity.

Jaycee Week Observed

Last week Jaycees throughout Canada observed Junior Chamber of Commerce Week. St. Paul has an active organization which joined in, and a program of service in the community was encouraged. This organization of young men should be encouraged.

It is a training and proving ground for youth where opportunity such as can be found nowhere else is available.

The St. Paul Jaycees' record through the 27 years they have been in operation speaks for itself. Simply by looking around you can see what has been accomplished in recreation, sports, car rallies, to mention only a few of them.

With broad purposes and its distinctive 18-40 limitations, Jaycees tend to take on tasks which appear to be impossible to accomplish. They make mistakes and they fail, but more often than not, they surprise community leaders by doing what no one else would try.

By adding their energy and enthusiasm to the courage of youth, Jaycees take on controversial projects which other groups pass by. With a philosophy that young men can change the world, bold measures become second nature to a Jaycee Unit.

We take this opportunity to congratulate them and encourage every young man in St. Paul to take seriously about joining the Jaycees and become active in an organization that will return them benefits proportionate to the effort they put into it.

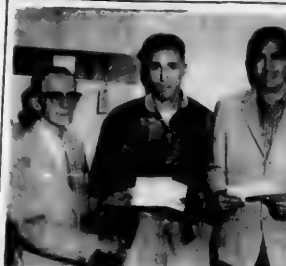

Stirs Poetic Thoughts

By Vilva Correspondent

Just south of Vilva is an eighty-acre field of oats. For their undulating beauty it is a sight to stir a melody in your heart. Unlike wheat with its golden reward, unlike barley with its woolly smoothness. Oats has a quality of grace and beauty all its own. Standing there in its spiritual colors, the brown of Fall blending into the purple of upward into a pink under stem that holds its spray of kernels like a sun umbrella, your senses are aroused with admiration.

Gusts of wind stir the field and you see stately meadows like a measured field of girls doing calisthenics. Blackbirds swoop in myriad numbers from one section to another. Mice and gophers go about gathering their winter supply. But the stately oat field stands proud and serene and does not begrudge the little nature asks for its little denizens of the field.

Fields of wheat are tinged with green of morning. Barley has marched with its waiting army in Rome. But oats is just plain food like bread. No filly tricks, no John Barleycorn but the staff of life emanates from this humble grain. You watch this field of prosaic oats and your thoughts flower to imaginative heights. Such is the enigma of the things we take for granted in life.

INDIANS GRADUATE IN FIRST AID CLASSES

Here is the solid, silent Super Torque Ford for 1964

The most beautiful Ford ever—hundreds of pounds stronger, smoother and steeper than any other car in its field. Open competition has bred into the '64 Ford the kind of total performance you just can't create on the track alone. They're hand muscled, fast moving, sure-footed... with more steel in their frames, heavier bodies, more solid road-hugging strength than anything else in their field. A remarkable new suspension system gives them a ride as smooth as cars costing thousands more—and the '64 Ford offers you substantially more car than anything at their price. Don't wait our word for it—take the wheel and see. Test drive the total performance of the '64 Ford... at your Ford Dealer!

The 1964 Super Torque Ford has the beauty, elegance and power of a car to be a million Cherokees from 18 models in four series, including the Ford Custom, Capri, 500, 500XL and 500XLXL.

Prevent Calamity

One single fire in Alberta killed 10 persons, died and \$127 millions of property, valued at was more than in 1940; would be estimated that Canada's present population, and indeed one of the world's worst calamities took lives, for example, the disaster that hit the Great Lakes Fire in 1940.

First question for the fire-fighter, reaching a house, is for the Who's inside, and where? These examinations, and up the fire, teachers demonstrating that the house is occupied by available for an immediate person.

FURNACE SCREENS

Dirtly furnace screens are responsible for many fires and account for damaging losses at best.

**CLEAN THEM
BE SAFE . . .**

Heaters in shops, garages, warehouses and other buildings can cause serious fire damage. Properly clean, and the maintenance of the certain furnace screens for the season is recommended for the reason above. Screens are made of metal mesh that will reduce fire hazards to a minimum. Protective prevention all through the year.

History Being Made

People involved in important historical milestones are usually the last ones to realize the contributions they are making to the community, the country and posterity as a whole.

A prime example of this occurred last week when a number of dedicated St. Paul promoters (and we mean promoters) along with other dignitaries and interested citizens turned up for the official sold turning and dedication ceremonies. Some of these people feature in a picture on page 8. We hope they're around 50 years from now when they'll be celebrating this town as it was written up.

As a newspaper we have followed the development of the community Recreation Centre to this stage and will be keeping close to it in the future years.

To give credit where credit is due, and not forget anyone is difficult, but a few personalities stand out who cannot be overlooked.

Architects back last fall when the idea was conceived and ways were brought in to discuss possibilities and get ideas on the building of a recreation centre, when the time came to write up a constitution and develop a plan, one man took the lead in pushing the idea across and his perseverance paid off handsomely. That man is John L. Lagasse, a young lawyer and family man who you might say had direct incentive but more than that, great vision for the future of this town.

Through the months which followed, the big four was named to take care of the minute and one details. This included Allan Douglas, Ken Tannis, Gerard Girard and Paul Dreier, president of the local chapter of Commerce. The Town Council took a direct interest and their co-operation was extremely helpful in obtaining provincial grants and other necessary assistance. Mayor Jules Van Brabant took active part and gets credit for being in the finishing line with great enthusiasm.

In spite of minor criticism which is natural to progress and objection by a small minority, we feel that when the time comes to celebrate our 100th anniversary, the citizens of St. Paul who still have benefited from this project will look back gratefully at the initiative of these promoters in St. Paul - first to conceive and come up with the idea of a complete family centre, essential for the happiness of the community.

Hockey Is In The Air

Doubts about ringing a local hockey club have more or less been dispelled at the annual pre-season meeting of the Eastern Alberta Hockey League last Sunday.

Hockey is very controversial in St. Paul. Before, during and after each season, the merit of local or imported hockey players is always up for serious criticism. And this requires serious thought.

Granted that local players can produce a competitive club, this certainly is the ideal situation. The management must be cautious. If a club continually gets defeated 10-0 or some ridiculous figures, fans will lose interest and drop out. The coffers will be empty. On the other hand, expensive imports may run the club in the whole, which is no better.

The one thing to bear in mind is that we cannot compete in this league with local or imports who cannot hold their own. The competition is terrific. The trend with other clubs is to import and the grape vine indicates it is continuing this year. We read in the Lloydminster Times that Max Bentley has been signed on as a player-coach. Brent McNabb is still active in Vermilion, and Bonnyville is far from weakening, determined to hang on to the Craig Cup for all their worth.

Indications are that St. Paul wants hockey of a good calibre, and bearing that in mind, full support should be given to the executive elected last week. It's no easy job.

CONSUMER TOPICS INFORMATION WORTH KEEPING

In the excitement of putting a new garment or article to use, consumers rarely stop to read the information supplied by the manufacturer to help them get the most out of their purchase.

VALUABLE consumer information will be found in the form of a label and a booklet. These labels and booklets are available to consumers in the form of a booklet or a separate leaflet.

Labels and booklets are available to consumers in the form of a booklet or a separate leaflet. These labels and booklets are available to consumers in the form of a booklet or a separate leaflet.

These general comments are that, although the quality of electrical equipment has improved, and there are fewer calls in repair shops due to faults in appliances, there are many complaints due to improper operation, particularly of washers. Appliances are often used in ways that the manufacturer did not intend, which leads to the use of the wrong detergent, overloading, changing in-cup wash cycle, and failure to remove hard objects from the drum.

General tips on which the manufacturer has gone to great lengths to provide instructions should also be kept in mind and kept for future reference when needed.

Your Co-op suggests that each tag should be followed by the instructions and given to the person who will use the appliance.

The instructions suggested will only cost a few cents, but they are the cost of a repair bill that might be avoided or the price of a garment that is ruined by improper cleaning. A look will also provide the convenience of being a single repository for each material.

And say... in that same booklet, why not keep your copies of Co-op CONSUMER TOPICS for future reference, and also any clippings from magazines or newspapers that give handy and useful hints?

There is one exception: Your Co-op suggests that tire and battery guarantees, operator's handbooks, and manuals for machinery should be kept in the glove compartment of the car where they will be available for reference whenever the car may travel.

SIGNING FUA MEMBERSHIPS

Two Alberta farmers, both from the Medicine Hat area, and now residing in Edmonton, are about to take part in an activity which is securing again and again all over the Province. The Hon. A. J. Brown, Alberta Minister of Agriculture, is receiving his FUA membership. (Left) writes on Mr. Brown's receipt as the Minister reads his cheque. Back row continue to write applications though at present they are not living on their farms. However, they have an active interest in their home places, where Mr. Brown's family farmed for years, part dry land and part irrigated at Bowden, and the Mr. Brown operates a large dry land farm near Hilda. The... are not next door neighbors in Edmonton.

Business Analysis Farm Program

Receives Certificate Of Merit For Saving Man's Life

From information I have received, Harold and Mary have been awarded a Certificate of Merit for saving a man's life. The certificate was presented to them by the St. Paul Police Department. The man who was saved was a young man who had been thrown from a boat. Harold and Mary were the first to see him and they immediately went to his aid. They were able to get him out of the water and get him to the hospital where he is now recovering from his injuries.

Petroleum Association Oil Forum

Continued from page 1
The forum was held at the St. Paul Hotel. The speaker was Mr. J. H. Brown, President of the Petroleum Association. He spoke about the future of the oil industry and the role of the government. He said that the oil industry was facing a number of challenges, including a decline in production and a rise in prices. He said that the government was doing everything it could to help the industry, but that more was needed.

Read Accident Toll Peaks Towards New Year 1963

Accident toll on the highways in the province rose to 1,000 deaths and 1,000 injuries in the first 10 months of 1963, according to a report by the Department of Transportation.

The report, which is the first since 1958, shows that the number of deaths and injuries has increased steadily over the past five years. In 1958, there were 800 deaths and 800 injuries; in 1959, 900 deaths and 900 injuries; in 1960, 1,000 deaths and 1,000 injuries; in 1961, 1,100 deaths and 1,100 injuries; and in 1962, 1,200 deaths and 1,200 injuries.

The report also shows that the number of accidents has increased over the same period. In 1958, there were 10,000 accidents; in 1959, 11,000; in 1960, 12,000; in 1961, 13,000; and in 1962, 14,000.

The Department of Transportation is now studying the reasons for the increase in accidents and is planning to take steps to reduce the toll.

Christmas Time Saver

The trend towards personal greeting cards grows annually. What are the cards which can be ordered with the sender's name and/or address printed on the bottom.

Most Canadians send so many Christmas cards that having part of the work done right at the printer's office saves time. Most printers have a selection of personal greeting cards available for order.

Faculty Of Physical Education Stated For U. Of A. Campus

The new Faculty of Physical Education at the University of Alberta is expected to be established in the fall of 1963. The faculty will be headed by Dr. J. H. McPherson, who is currently a professor of physical education at the University of Alberta.

The faculty will consist of several departments, including physical education, sports medicine, and recreation management. It is expected that the faculty will play a significant role in the development of physical education programs at the University of Alberta.

Dr. J. H. McPherson, head of the new Faculty of Physical Education at the University of Alberta.

25th Wedding Anniversary

Mr. and Mrs. J. H. McPherson are celebrating their 25th wedding anniversary on December 25, 1962. They were married on December 25, 1937, in St. Paul, Alberta.

Mr. McPherson is a professor of physical education at the University of Alberta, and Mrs. McPherson is a homemaker. They have three children and are looking forward to many more years of marriage.

Induction Of New Teachers

The Alberta Education Department is holding an induction program for new teachers in the province. The program is designed to help new teachers adjust to their new roles and responsibilities in the classroom.

The induction program includes a series of workshops and seminars on topics such as classroom management, lesson planning, and student assessment. It is held over a period of several weeks and is mandatory for all new teachers in the province.

Joyees Told Of Problems Of Quakes

Scientists are warning that a major earthquake could strike the Rocky Mountain region of Alberta in the near future. The warning is based on recent seismic activity in the area.

The scientists are urging residents in the area to take precautions, such as securing heavy furniture and avoiding tall buildings. They are also advising people to have an escape plan in case of an earthquake.

How Old Is Your Muffler?

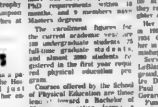

A new service has been introduced by a local garage, offering a "FREE Muffler Inspection." The service is designed to help car owners determine if their mufflers are in good condition and need to be replaced.

The inspection is free of charge and takes only a few minutes. If a replacement is needed, the garage offers a discount on the new muffler. The service is available at all hours.

Carol Festival Sponsored By Auxiliary

The St. Paul Auxiliary of the Canadian Legion is sponsoring a Carol Festival on December 15, 1962. The festival will feature a variety of carols and songs performed by the auxiliary members and their families.

The proceeds from the festival will be used to support the auxiliary's activities and programs. The festival is open to the public and tickets are available for purchase.

No. 1 Enemy of House Plants

Unfortunately our house plants are frequently attacked by insect pests. If you have a magnifying glass, you can see them crawling on a plant segment covered by insect pests to prevent its spreading over to them. As shown in the second

glass, use it to examine the stems, new foliage and especially the undersides of the leaves of your house plants. You may be amazed at the infestation of insects.

I believe the hardest to control, and the most persistent, are the mealy bugs. They cripple plants by puncturing plant cells and sucking the juices which

panying Garden-tiraph, they are apt to start in the crevices of the variegated wax plant, then on to the backs of the leaves. On the finger aralia they start where the leaf joins the stem. They are also fond of coleus, African violet, calathea, agave and ivy.

As shown, destroy the

torvald on a salmon company's website, says the fish is "not contaminated with any detectable level of mercury or other toxic substances." The company also says it has an adequate amount of phosphorus and vitamin A.

This conclusion was reached after two water studies had been carried out on the waters of the Beaverford Ecoprovincial Station According to a Boddon, Loveland, and Ivener with the Alberta Department of Agriculture, group, the control group received a roughage allowance of 2 parts of salt straw to three parts of lucerne hay. The lucerne hay at the level of 2 to 3

parts of lucerne hay to one part of water and minerals was the same as for the control group. The lucerne hay was found to be below 20,000 mg of mercury per day, and the water was below 100 mg of mercury per day. The water in the water tank at the gravel stations was only two-thirds the amount recommended by the National Research Council for beef cattle. The animals were found to have no effects on lung as they were not coughed up, and no effects on the liver as the animals A. The only nutrient effect was that they took

Canada-Wide Indian Research Survey To Be Conducted

The Hon. J. F. Gault, Minister of Indian Affairs and Northern Development, announced today that a major research project is being conducted by the Department of Indian Affairs and Northern Development to determine the needs and wishes of Indian people throughout the country.

Mr. Gault stated that the purpose of the survey is to provide a basis for the development of policies and programs to meet the needs of Indian people. The survey will be conducted in three stages: first, a survey of the needs and wishes of Indian people; second, a survey of the needs and wishes of the general public; and third, a survey of the needs and wishes of the federal government.

The survey will be conducted by the Indian Affairs and Northern Development Commission, which is a body of Indian and non-Indian members. The commission will be responsible for the design and implementation of the survey, and for the analysis and reporting of the results.

Mr. Gault stated that the survey is a major step in the development of a new relationship between the federal government and Indian people. He said that the survey will provide a basis for the development of policies and programs that will meet the needs and wishes of Indian people, and that will be acceptable to the general public and the federal government.

Support Price For Eggs

Support price for eggs will

continue unchanged at 25 cents

per dozen, according to the

Department of Agriculture.

The minister said the federal

agricultural stabilization board

has been authorized to support

the price of Grade A large

eggs for a deficiency payment

of 10 cents per dozen from

1, 1952, to September 30, 1953.

The national weighted average

price of 34 cents per dozen is

in effect.

This support price represents

an average of the three areas

of production, while last year

the average was 24.5 cents

per dozen. The support price

will be 25 cents per dozen and

no deficiency payment was

made.

The change has been made to

bring the support price for

eggs in line with the

price of other poultry

products.

If a deficiency payment is

made in 1953 it will be paid

to a maximum of 40 cents

per dozen, the price of

JUST THEIR CUP OF TEA

On Christmas Eve, Johnny Wayne and Frank Shaver will be bringing in a merry Christmas to Canadian troops serving overseas. They have brought a special CBE radio show which is being broadcast in public in Regina, the "Hudson Bay" Camp and Indian Camp, as well as 12 BCV hospitals in the north of Canada. Home-Listeners can hear the program on Christmas Day by tuning in to the CBE radio network.

GREETINGS FOR CHRISTMAS

"Let us go even unto Bethlehem."

So spoke the shepherds, one to another as they went to seek and find the Holy Child of whom the angels sang. This Christmas, let us return in heart and spirit to Bethlehem and the sacred manger. Let the miracle of His birth and the joy of His message ever be our blessing and inspiration.

As the radiance of that Holy Night shines across the years and the world rejoices, our thoughts turn to His words, urging all to brotherhood, and we feel it is especially fitting at this Christmastide to express anew our cordial greetings and good wishes to our many valued friends. May your Christmas be a wonderful one.

Agricultural Society Alive

Facing the problem squarely of whether to carry on or dissolve, the St. Paul Agricultural Society decided to stay alive.

The support received at its annual meeting this week indicated that there is need for such a society in St. Paul. We agree with one of the members who said that St. Paul, as a mixed farming area (livestock), must have this kind of society to promote its welfare.

In the past the Agricultural Society had gone above its head, sponsoring fairs which seem to lack interest and fail to draw support, roads which are something of a past.

Now that it has turned over its assets on the Exhibition ground, been relieved of the responsibility of paying bonds, the Society finds itself in a solvent position and ready to concern itself with the affairs of the farmers, its primary reason for existence.

Discussing the turn over of the Exhibition grounds to the Town, one member remarked that the Town had been lucky to get such an asset for so little. True, perhaps, but it must be remembered that this property to the Society was a big liability, holding them down to responsibilities difficult to meet. With the present arrangement, the Society retains all its rights to the use of the grounds without the restriction, a member pointed out.

We were pleased to note that plans are going ahead to sponsor a wine sale in the near future. The Society must be made aware in order to give the breeders time to prepare stock for this event. In addition to the regular bull sale sponsored by the society, this should help the cause of the livestock industry.

Among other duties the Agricultural Society intends to assume is the sponsoring of a Calf Club sale.

We wish to congratulate the retiring president, Mr. Lamotte, who took over during difficult times and did a good job of straightening the affairs of the Agricultural Society.

To the new executive our congratulations, looking forward to a good year in 1964.

Jan Rubes - Appreciated

To often, artists, actors, singers, are temperamental, hard to get along with, probably due to the world of adulation they live in and the nature of their occupation.

This we can't say of Jan Rubes, bass baritone, who was the St. Paul Overture Association's second star in a series of concerts.

On and off the stage Mr. Rubes proved himself congenial with a warm personality. His humor and wit on stage made his rendition a success, further appreciated by his easy going manner and pleasant personality to meet his audience informally at a reception which followed.

Of bicentennial, an issue which is being heatedly discussed with a variety of opinions across the country, Mr. Rubes said that the sooner we start teaching a second language in our schools, the better.

An accomplished linguist - Mr. Rubes speaks a half dozen tongues fluently - appreciates the value of versatility. He did not necessarily endorse French over any other language, but said the sooner we stop talking about it and do something, so much the better for the culture of this nation. It is a problem of teaching and instruction should start at an early stage of a child's career, when he is more receptive and catches on faster.

Jan Rubes is to be congratulated for his performance in St. Paul. It was a pleasure to be his guest. The St. Paul Overture Association also deserves recognition for bringing these artists into St. Paul, and we are looking forward to the next performance.

Drain Eases On Fund

Unless something unexpected comes along, Canada's battered Unemployment Insurance Fund cannot get through the winter without having to borrow any of the \$55 million which has been set aside by the Treasury. At the beginning of November the fund totalled \$56 million, having paid back the \$35 million it borrowed last winter. Payments for the month exceeded payments out of it all through November and into December. Although exact figures are not yet available, it would seem probable that the fund is not yet available at least \$50 million available. On previous experience, this would dissolve quickly from here. Last winter the fund had net losses of \$22 million in January, \$32 million in February and \$30 million in March.

BIG PRIZE IN FARMERS' SPIEL GOES TO FLORIS LOOY

Floris Looy of St. Brins, combined his fellow farmers over the weekend that he can run. His efforts were his first prize of the three-week contest and a beautiful trophy and diploma from the St. Paul Agricultural Society. The winners are seen in the front row, receiving the trophy from Floris Looy and his son. The trophy is being presented to him by the St. Paul Agricultural Society. Minor Hockey Story

There is a lot of activity in the world of small hockey players in this town. They are being coached by dedicated men, both schools and the churches encourage the promotion of good clean sport.

As for as actual financial support is concerned, the business men of this town have been very generous and never hesitate to contribute when it comes for a demand to encourage young budding hockey players. It isn't always enough, but who ever gets enough.

Aside from financial support, however, there is a definite lack of encouragement on the part of many parents whose children play hockey. They want them to learn, would like to compete, but they won't let them. They are afraid of the cost. They want them to come to the rink, but they won't let them. They want them to come to the rink, but they won't let them.

We have looked in on many rinks, games, tournaments and even playoffs where parents of the children who played were not in the crowd. Why? Every child he can do, get an encouraging word and compliment. That, more than anything, will provide him with the incentive to carry on to greater efforts.

So with that in mind, we direct your attention to Minor Hockey Day at the St. Paul Arena, Sunday January 26th.

Be one of those fathers who will take his boy by the hand to the arena and not send him alone and sad.

On Centennial Board

The National Centennial Advisory Board could have made no better selection when it chose Mr. Ralph Steinhauer of Saddle Lake as Northern representative.

Mr. Steinhauer, a prominent Indian farmer, is well known in this district for his ability, understanding and deep concern with public affairs which offset both his race and the welfare of the country.

For a centennial representative, who will better choose than a true Canadian, a descendant of the first people to inhabit this vast country of ours.

Monday, Mr. Steinhauer was guest of the St. Paul Chamber of Commerce at its weekly dinner meeting. He gave a brief on the organization of the centennial celebrations and what it has so far.

We were pleased to hear Mr. Steinhauer say that this last meeting in Ottawa, the Council had been told of St. Paul and was aware of the stimulus being generated from here.

Mr. Steinhauer offered unconditional assistance to St. Paul in its projects, a fine gesture which has been noted and will be taken advantage of, we are certain to the benefit of the community through his co-operation.

Numbered People

Peace-time registration of citizens is announced from Ottawa. The excuse seems to be the ever greater extension of social services, pensions, unemployment insurance and what have you. The cards which will be sent to 4,500,000 citizens soon, are of a kind that can be processed in computing devices. The whole philosophy of registration is that government can keep track of people more easily. The fact is that crime will not be diminished, for a social security card, or other bit of evidence, is easily forged.

Perhaps if there had been no invention of computer devices there would be fewer efforts to increase government encroachment on the right of the citizen to be himself and not a number.

Closing Under Fire

The decision by a number of merchants to change store hours, close all day Monday, or a Wednesday, came under fire at the Chamber of Commerce meeting Monday noon and again in the evening of the Town Council meeting where a large number of business men, professionals and farmers were on hand to object.

It is hard to ascertain just how many merchants are actually in favor of this proposal. Some are vehemently opposed. One thing that is certain is the fact that the business men and other occupations as a whole take a dim view of the prospect of closing all day, and expressed the feeling emphatically by recommending to the Town that no such change be entertained.

The decision was definitely premature and should have been deliberated a little longer with more heads brought into the picture to get a good cross section of opinion. This is a serious issue which can affect the economy of every business in town, large or small.

It has been said before in these editorial columns that St. Paul owes its success and growth to services rendered. We are a servicing town. Cutting down service hours can only have an adverse effect on the economy and chase border line customers to other towns, never to see again.

If it is a question of a five day week, there should be no problem. Many businesses which operate six days a week, and even 24 hours a day in the city, find a way to stagger hours so that all employees and management take two full days off in the week.

There are actually some firms in St. Paul who service six and five-and-a-half days a week. There is nothing wrong with this. There is no reason why any type of business could not adapt to this system.

Conversely, in an age of growing conservatism, we should be advocating more services, rather than curtailment if we are going to continue to prosper. We hope that some serious reconsideration will be given in this matter, so that the eventual benefit of the town can be served for the prosperity of everyone.

Performs For Children

Arthur Polson, becoming recognized as one of Canada's leading young violinists, was the third guest brought in by the St. Paul Overture Concert Association.

One of the youngest violinists in the art circuit, his performance was acclaimed as an astonishing and superb musical presentation.

Mr. Polson is a very serious young man dedicated to his music and produces a variety of likenesses from an instrument he seems to adore and which performs magnificently for him.

He is beyond being a dedicated musician, Mr. Polson displayed a rare quality. He is passionately interested in the promotion of good music and especially keen in introducing young people to the pleasure of classical music.

So it was no surprise that he volunteered on his own, along with Howard Brown, pianist and Kenneth Lee, a clarinet player, to stay over for the night and put on a second free and impromptu performance Friday afternoon. After explaining the basics of the violin he proceeded to give over two hours of recitals to pupils from both schools and others from the district who had been invited for the special concerts.

Minor Hockey Day

The response was good and the parents are to be congratulated for taking their children to the arena and of them enjoying to watch the play and give their encouragement.

It was a madhouse, especially when sticks were drawn, but we all had a good time for the night and can praise themselves as spectators and the boys on the ice put on a performance of good hockey.

It is only fitting to recognize the people who manage and coach these young people. In this case, Minor Hockey Day was sponsored by Clarence Richardson with the co-operation of Rev. Fr. Bozoupe of the O.T.J. playground, both of whom along with their assistants deserve acknowledgement.

We hope you can join in your boy to the arena, and help to encourage him.

ANXIOUS YOUNG FACES LOOK UP IN ANTICIPATION

Youngsters here with anticipation to hear if their numbers are being drawn. Greyway took place at 3:30 p.m. at the St. Paul Junior High School. The drawing was held by Mr. J. J. Gaudin, St. Paul's Junior High School principal.

Search For Talent

Search for Talent has become synonymous with Search-for-Help on behalf of the crippled and afflicted of Northern Alberta.

Each year as we watch the show, the dedication of the performers, both professional and amateur, the devotion of the Associated Canadian Travellers who partake, we cannot help but have sincere admiration for these people.

The travellers, especially who travel out of the country after having been on the road all week, deserve recognition along with their wives who take up the day of the road selling admissions and raffie tickets and programs on the floor.

Besides raising money for the crippled children, Search for Talent provides an opportunity for local talent to appear on stage and be discovered. Many fine artists in the entertainment world get their start through Search for Talent shows.

And no one can minimize the fine show the CFRN group of volunteers produce to regally entertain the audience. Everybody got their money's worth including the crippled children of Alberta.

Car Sales Upheld

Car sales are on the high road to top, automotive people believe, according to Carlyle Dunbar in The Financial Post. In the past, the industry has had three pairs of years in which sales set records. A fourth pair of record-breaking years has just passed. The industry thinks it has a good chance of making history by extending current record sales into a third full year.

A solid fact buttresses this salesroom optimism: scrapage of old cars. Last year an estimated 283,000 old cars went to the wreckers, junk yards and the scrap-metal specialists of the Liberal party. This is in the tradition of Mr. Lapointe and, later Mr. St. Laurent. Having a confident and acceptable Quebec leader is an advantage the Liberal party will have over the Conservatives, for, try as he would, Mr. Diefenbaker was not successful in the same area.

Cabinet Changes

Mr. Pearson's cabinet changes are interesting so far as they go. Mr. Guy Favreau's appointment as Minister of Justice seems to mark him as the leader of the Quebec wing of the Liberal party. This is in the tradition of Mr. Lapointe and, later Mr. St. Laurent. Having a confident and acceptable Quebec leader is an advantage the Liberal party will have over the Conservatives, for, try as he would, Mr. Diefenbaker was not successful in the same area.

Mr. Pickersley's elevation to the Ministry of Transport is probably deserved. That department is of increasing importance and it is well that a competent person is the head of it. Any criticism of him may be due partly to his very pronounced portlandship and partly to the fact that he is a retired civil servant.

Mr. Maurice Lamontagne's shift from the presidency of the Privy Council to the secretaryship of the state after the Secretary of State's department has been shown of some of its responsibility is an indication that Mr. Lamontagne has a professional complex which hardly fits into the active business of government.

The new Minister of Immigration, Rene Tremblay, may be able to persuade the French people in France that Quebec and Canada generally are attractive areas for settlement.

Mr. J. R. Nicholson's promotion as Postmaster-General from forestry will be watched with interest. Forestry was a department created by Mr. Diefenbaker for no very good reason. Forests are almost entirely matters of provincial concern.

FORMER ST. PAUL GALE WARDEN FEATURED IN HOLIDAY FOLDER
Gerry Stoenham of St. Paul, a former Gale Warden in this district, is featured in a colorful picture folder for a recent provincial folder called "Wild Alberta". Gerry is shown on the right example of the folder, which is available to all interested parties. The folder is a colorful and informative guide to the province's natural resources. It is a must-have for anyone interested in the province's natural resources. It is a must-have for anyone interested in the province's natural resources.

EVERY PART IN THIS PICTURE ON EVERY NEW Plymouth, Dodge, Valiant, Chrysler & Imperial car and Fargo & Dodge truck

IS BACKED FOR 5-YEARS OR 50,000-MILES!

This outstanding warranty covers defects in parts or workmanship in the power-train—that's the engine and all internal parts, water pump, intake manifold, transmission, torque converter, drive shaft, universal joints, differential, rear axle and rear wheel bearings. And it includes both parts and labour. It is honoured by every Chrysler Canada Ltd. dealer.

All you need to do to have the oil changed every three months or 4000 miles, the oil filter replaced every second oil change, and the carburetor air filter cleaned every six months and replaced every two years—and have

DUBUQUE — The Coal, Oil and
Atomic Workers Union
announced today that it
will stage a 10-day strike
beginning Jan. 15 in the
striking region of the
Midwest. The union
said employees and their fam-
ilies will be back in the
work force by Jan. 25.

Peter Pogorelec, struck his
first blow in the strike
today, and Mrs. Eugene Sen-
nott, 60, of 1001 E. 10th St.,
in Grand Challenge
apartment building, was
the first to go out.

Erna Kruha, Mrs. John
Pogorelec, 41, of 1114 and Mrs. Jo-
seph H. Hirsch, 40, of 1114

Third place went to Mike
J. Hirsch, 39, of 1114 and
his son Joe Dychak.

In the second event Jack
R. Hirsch, 39, of 1114, won
the consolation of \$100 and
a vacation to the Kew-Forest
Hotel in Valley Forge, Pa., for
himself and his wife. The
other finishers were Ray
Hirsch, 39, of 1114, and
Mrs. Wm. Churbaun.

Hirsch's opponent suffered
injuries with Miss Susan
Joe Farnack and Audrey Gray.

Third place was taken by the
Hirsch family and the
fourth spot was the Alts
family of 1114.

Peter Maronich, Erna
Gruha, Bill Harris and Shirley
Hirsch received crying towels
for their best bout of the
evening.

THU HILLS — The Elks Lo-
ge 1114, 1114, 1114, 1114, 1114,
initiated Tuesday. Initia-
tion was held at the Elks Lo-
ge, 1114, 1114, 1114, 1114,
and the lodge was the home
of the new members. The
new members were: John
Hirsch, 39, of 1114, and
his son Joe Dychak.

The third event was hostly conducted and obviously won by Peter Kulash's ride of Norman Hallstein Apt. Rudolph and Mrs. G. Driscoll.

R EACH TOOTH IS MORE PRECIOUS THAN A PEARL.

Years have often compared the beauty of tooth with precious pearls. But from a health standpoint they are more valuable than pearls. In these modern times, parents who neglect their children's oral hygiene, invite a dental visit for the reason of avoiding their breaking.

Your dentist can advise you about which dental aids are best for those who are prone to tooth breakage.

ST. BRIDES SECTION

A very enthusiastic meeting of the ladies last week prepared a most comprehensive program for the celebration of the 50th anniversary of the St. Paul's Church.

There will be the traditional wedding supper from 7 to 9 p.m. at the home of the bride, followed by the church service at 9 p.m. and the reception at the home of the bride.

The bride is Miss Patricia Ann McNeil, daughter of Mr. and Mrs. J. H. McNeil, of St. Paul.

The groom is Mr. John B. McNeil, son of Mr. and Mrs. J. H. McNeil, of St. Paul.

The ceremony will be performed by the Rev. J. H. McNeil, pastor of St. Paul's Church.

The bride and groom will be accompanied by their parents and other relatives.

The reception will be held at the home of the bride, 1234 Main St., St. Paul.

It is planned to thank the bride and groom by the church service at 9 p.m. and the reception at the home of the bride.

Chevrolet built the new Chevelle to fit into all your plans
(including your budget and your garage)

Chevelle fits the bill! It's a new-size, low-price car, tailor-made for people who want a combination of features that other cars simply don't have. Here's what we mean: Chevelle's beauty adds a new dimension to functional design! Chevelle's stylish curved-glass side-windows mean interior measurements within an inch of most regular-size cars. Chevelle slips easily into tight spots—and out of them! Chevelle's 116" wheelbase is sized right for city traffic—makes parking practically effortless. Chevelle's power is made to measure with Six or V8s, transmissions for every taste, and a full array of extra-cost options. Chevrolet reliability keeps Chevelle fit for the future with proven safeguards like Body By Fisher and Magic-Mirror finish. Take Pride In Your Community

Tomorrow (Friday, April 3-4) the outspans of St. Paul are being called to the polls to decide on the construction of a new Civic Centre (Town Hall).

A two-thirds majority is needed to carry the project to success — something every progressive person in this town should be in favor of.

The voting starts at 10:30 a.m. in the Town Hall and continues until 7:00 p.m.

The St. Paul and

Columbia River Treaty is a cause of worry to the Colquhly Herd, which is near enough to the project to have a special interest and possibly a special knowledge. The basic question is whether or not Canada's treaty with the United States is in violation of the Canadian parliament, is giving away a sovereignty that it should retain. General McNaughton, who negotiated the treaty in the first instance, says that the intent of the treaty was to be guarded under the treaty as provided by John Diefenbaker and in the treaty which is now before the House of Commons. The Colquhly people say that the members should not give away any clause giving U.S. interests control over dams and rivers on the Canadian side of the border. This surrender of sovereignty is unacceptable to the Herd. If such is the case, it is clearly unacceptable. The argument that the power is needed soon and therefore the treaty is justified is also unacceptable. The Colquhly people have made has in the past given away its sovereignty rights on other matters but in the old days it usually was at the instance of a British negotiator who had no personal interest in the project.

AUTOMATION

FATHER DIES

Mr. Norbert Wosner, 68, known as the "Father of Automation" by virtue of his pioneer work in cybernetics, the feedback control theory which is the key to computer technology, died in Northbrook, Minn., while on a lecture tour. He had retired in 1960 as a Massachusetts Institute of Technology mathematics professor after 43 years there.

No Co-operation

We received a very disconcerting complaint from a lady in St. Paul last week. This person is on the executive of one of the local organizations and was trying to find a place to conduct a rummage sale or something of that nature.

She approached one business concern on main street and asked if they would mind granting this small privilege. As it was, the firm concerned is not a privately owned business in St. Paul, but one with headquarters and authority out of town.

Very polite, efficient, but very bad public relations, we would say. The lady's question was very irritated and threatened to expose this firm, but we held her back on the basis that there are liberal laws which would make her vulnerable equally with the newspaper.

Grass Fires

Spring is here and with the snow gone, eager beavers have started their cleaning chores. And that is all very well at this time of the year, but already the fire department has been called out on several occasions to extinguish grass fires out of control.

Just a caution to be careful when you light a fire. Check the wind and if there is any hazard, notify the fire department to stand by. Better to prevent a fire than to put it out.

Chamber Week

National Chamber of Commerce week which is being currently observed by over 850 Boards of Trade across the country, provides opportunity to focus attention on the importance of this organization to your community.

A MOMENT OF FEAR

Alain Michaud, captured as an impromptu to a French play Sunday, is getting a bad case from Paul Harchand who frightens him, pretending to strangle him while inspecting his blank face as a joke.

French Club Presents Comedy Play

The St. Paul French Dramatic Club brought light relief and entertainment Sunday night with a comedy, "La Monnaie du Pape" (The Pope's Money).

The French play, composed in French by Louis Velle, was written in a play and rapid rhythm with excellent humorous action.

Although it may have been a French comedy and comedy, the play was not a happy ending. The play was a comedy, but the ending was not a happy one. The play was a comedy, but the ending was not a happy one.

A meeting was held in Bonnyville, Sunday, April 12th, with delegates from Lac La Poudre, St. Paul, Elk Point, Bonnyville, Grand Centre and HCAP. Cold Lake, for the purpose of forming a golf association comprising of the six above named centres.

After deliberation was held and a decision was made to form a golf association, the delegates from the six centres met to discuss the matter. The delegates from the six centres met to discuss the matter.

Each of the seven will have two members to enter into later play to be decided.

Velle's A will comprise of play with a building of 20 or 25 ft. but not over 25 ft. The building will be erected by the delegates from the six centres.

A new system of course rating was adopted with the result that all players will have a standard score and a handicap.

All players will choose their handicaps through their local club secretaries. The local club secretaries will choose the handicaps through their local club secretaries.

Press For New Bridge At Myrnam

Hon. Ray Reiersen, Member of the Legislative Assembly was a guest at the Chamber of Commerce luncheon meeting Monday, for the specific purpose of bringing St. Paul businessmen up to date on road construction for 1964 and hear recommendations on the necessity of improving the St. Vincent road north of St. Paul.

Communications chairman, Raymond Givens, read a letter to the meeting and the Chamber of Commerce members, regarding the St. Vincent road, built through outcrops, grants from the provincial government but turned over to the County for maintenance.

It was pointed out that the travel is so bad and that the County is in a position to build a new bridge over the road. The County is in a position to build a new bridge over the road.

The Chamber of Commerce urged Mr. Reiersen to recommend to the Minister of Highways that the County be given the right to build a new bridge over the road.

Car Road-e-o

The Junior Chamber of Commerce and Imperial Oil Limited in sponsoring Car Road-e-o has found a vital area of promotion which is doing a tremendous amount of good.

Joyce has undertaken the responsibility at the local level while Imperial Oil is sponsoring from a provincial level.

Last Wednesday, one block of the main street in St. Paul was cleared for action as twenty young drivers, sponsored by local business men tried their hand at the wheel through the intricate obstacle course of balls, serpentine, offset and parallel parking, among a few of the tests.

It was noted by the Joyce vice president at the banquet that driving is something to do safely and the best time to learn it is in the teen years where perhaps there has been extra emphasis on the accidents in that bracket. It is up to teen-agers to prove they can drive cars, and one of the methods of doing so is to enter competition, where they learn some of the important and basic rules for driving safely.

We want to congratulate the teen-agers who made the effort. It is not easy to drive, and the public in tough competition. We hope they will improve the lesson well and will bear in mind the safety points for the future.

Golfing Starts

In between snow, showers, and braving the cold weather, the golf season is more or less underway.

The golf links are always a big attraction for youngsters. The golfing executive, bearing in mind wholesome entertainment for the development of good citizens, likes to encourage young people to golf. But on the other hand it takes a dim view of an element who haunt the course to create havoc and damage.

This year the club has obtained over 150 trees which have been planted for both hazard and beauty. Their preservation is essential and it would be appreciated if they were left alone to grow into healthy plants.

Children keep off the greens, don't steal the flags, especially No. 5 hole.

Many adult golfers also have to be reminded of etiquette... don't pile up with five players at five hours... juniors give way to adults and parents teaching their children can also be a little consideration. Pick times when the traffic is lightest. We all want to enjoy the course, but let's do it in a way that will be pleasant.

Good Ideas

Public speaking promotes thinking. And there were plenty of good ideas expounded at a 4-H elimination held at Blue Quills last week. It showed that the contestants had spent many hours studying their subjects, very educational to listeners in all walks of life.

The winner took the audience on a trip into space and the possibilities in interplanetary exploration of the future. Among some of the other subjects were the impact of the industrial revolution, meaning of education, a study and assessment of teen-agers, vocations, etc.

Win or lose the participants are to be congratulated for their persistence and taking the initiative that marks them as leader of the future. Without expression of thought, man can get nowhere.

COMPETITORS IN 4-H CLUB PUBLIC SPEAKING CONTEST

The public speaking platform at Blue Quills Indian Residential School last week were three contestants, including several. Front row, left to right, Judy Campbell, Edith Friesen, Gloria Heston, winner with Muriel Chamberlain, Shirley Chevalier, Jean, John Lypow, Elaine Friesen, and Emma Friesen.

T.B. Clinic for St. Paul called off for lack of local interest. True or False?

C.W.L. asked to convene organizational meeting.

a) Notice is inserted in Thursday's paper for a meeting the following Monday.

b) Letters of invitation are sent to all organizations of about same date, giving no time for organizations to call special meetings.

Nothing wrong with this procedure, however as this is bound to bring out still enough people to lay the groundwork and decide who should be interested to take on the chairmanship of different committees.

Much work is accomplished. Both the Legion and C.C. offer their halls free of charge. The Chamber of Commerce offers to defray the expense to rent out notices. Mrs. Thelma Laroux offers to take charge of providing the volunteer help for the duration of the clinic. The C.C.'s offer to look after all the publicity.

The C.W.L. offer to prepare and mail all clinic appointments was made by the St. Paul Ladies volunteered to look after their district.

The meeting ends with only two positions to fill, that of general chairman and a chairman in charge of advance registration. These are the two most important positions and more time is required to choose the right person of the right organization to take these jobs.

Much good work was therefore accomplished at this first organization meeting, in spite of the fact that those who attended knew very little of what was involved before the meeting.

However, Mr. Pugh decided that this was not good enough, and because we were to have these three additional chairmen of this initial meeting, he decided that the clinic would be postponed.

Successful Year

When a club in this town operates at a profit, even small, after handling a budget of over \$12,000, it can be considered a relatively successful year. And so it was for the Junior Chamber of Commerce. There was a time when they struggled against big deficits, but through the years have slowly poured down to the black, and adopted a policy of operating with a profit.

Financial success always goes with internal success and according to the reports handed down at the annual J.C. meeting, it was a good year from a point of purpose and promotion.

They achieved one of their biggest goals in promoting a successful public speaking course, building up astute citizens for public leadership.

Our congratulations to the outgoing executive and encouragement for the incoming directors to continue the good work of the J.C.

Arts and Craft

Culture in the Arts and Craft is building up in St. Paul, evidence of which is predominant with every exhibition opened to the public.

Last week it was the Arts and Craft Club headed by Mrs. O. Laroux who was in the limelight with her exhibits from a guest artist, supplemented by a large number of paintings from local artists along with displays of work in the crafts.

The millinery section where local designers displayed their creation of modern hats was especially attractive and a credit to their ingenuity, patience and talent.

Copper tooling work, mosaics, petit point, all testified to the obvious talent in town and how many people have learned to devote their spare time to something constructive, both rewarding in material and cultural achievement.

MIGHTY FINE HORSEFLESH AND RIDERS

Crested demonstration and competition sponsored by the St. Paul Riding Club Sunday afternoon at the St. Paul riding arena. The club members and their horses were the main attraction.

Teaching Spelling To Children

Dear Parents:
How many are in agreement with you that the "modern" method of teaching children to read is to have them learn to read by sound, but not by sight? This method, however, has become a serious handicap to many children, and it is time to take action to correct this.

It is my belief that the best way to teach a child to read is to have him learn to read by sight, and not by sound. This is the only way to ensure that the child will be able to read with ease and confidence.

Thank you for your letter to the St. Paul Journal. I am glad to hear that you are interested in this issue. I will be happy to discuss this further with you.

Of course our bank likes to say Yes.

You see, we need the money. Some of the revenue we earn comes from loans we make to people. So it's to our advantage to give every request for money much more thought. A little more understanding, too. It could be money in The Bank, so to speak. Another consideration: If we approve your loan you'll probably feel more inclined to do all your banking with us. Then we can really show you how truly helpful our complete banking services can be! So do us both this one big favor. Next time, see us for your money.

Time to Shake Out that Oil' Welcome Mat!

Yes, our good friends the tourists are attracted by all they've heard about Western Canada. They want to see it all. They want to experience it all. They want to shake out that oil' welcome mat!

Be Courteous

Give a smile with your service. Courtesy costs nothing, but its price is above rubies. Let our visitors remember Alberta as the Province with the good manners.

Be Helpful

Do all you can to help strangers. Kind their way. Give them a warm welcome. Let them know that you are helpful and friendly.

Be Friendly

It's nice to get acquainted. Talk to tourists in the communities and recreational areas. Let them know about your community's activities and attractions. Let them know you're pleased to see them. Let them know you're proud to be a part of Alberta.

New Labor Law in Alberta

Alberta has a new labor law which, according to the Calgary Herald, will prevent organized labor from exercising dictatorial and undemocratic power over the thousands of Albertans engaged in areas of work which often fall under trade union jurisdiction. The new law will prevent a trade union from disciplining a member who takes a job in a non-union shop when there are no union jobs available. If a worker goes to work in a non-union shop, it should be his business, not that of organized labor, says the Herald.

Pay For Others' Stupidity?

Is it fair that your auto insurance premium should be loaded to pay compensation to a drunk who staggers out of a tavern and falls in front of your car? Or for a criminal who gets in the way of your auto while running away from police? Or the joyrider who makes an accident unavoidable? These are some of the issues involved in proposals of automatic compensation for auto accident victims that are being made - and are in effect in Saskatchewan. Most insurers and many in the legal fraternity have in the past strongly opposed this principle of automatic liability regardless of fault. It is supported by other, however, on the grounds that compensation without fault might greatly reduce the time, cost and talent wasted in fighting accident cases in the courts.

The issue is coming up again this year, as a result of a study being prepared for Ontario, government. Irwin Haskett, Ontario Minister of Transport, has announced that Ogilvy & Mather Ltd. will conduct a research study into the nature and adequacy of compensation to motor vehicle accident victims. Purpose of the study is to help the government decide whether it should require the inclusion of accident benefits in auto liability insurance policies.

Home Hazards For Children

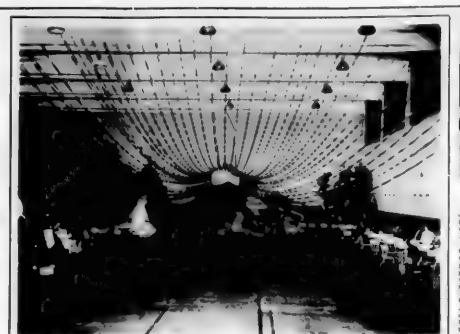

A warning to parents about the additional home hazards brought on by the gardening season has been issued by the Health League of Canada.

To prevent accidental poisoning of children so parents should be reminded that the chemicals they use to spray, dust or point their rose bushes, shrubs, trees or hedges can be very dangerous to people and special precautions should be taken to keep them away from children, the Health League says. "Some commercial fertilizers," it notes, "are a pretty color and if left open in garages or basements where youngsters can get into them to make 'pies' or 'castles' the results could be very serious."

"These garden products include warnings about care required in their actual use or handling, but if people are careless about drugs or pills around the house - and there is evidence they are - they need a special reminder about garden supplies. And that includes safe storage of containers of gasoline for lawnmowers."

If poisoning occurs in a home, three steps are essential: (1) administer first aid to the victim; (2) save the container and any of the poisonous substance to identify it; (3) get medical help immediately.

First aid involves getting rid of the poisoning or delaying its absorption. To get rid of the poison induce vomiting, by finger pricking after a generous drink of tepid water. To delay absorption, have the victim drink milk or raw egg. Vomiting should not be induced when volatile oils like gasoline or kerosene are involved, or when corrosives like lime or drain cleaners have been swallowed.

THIRTY-TWO YEARS OF PROGRESS

FROM THIS IN 1932 - TO - THIS IN 1948

Only A Dream In 1932

AND TODAY

A Dream Come True In 1963

A little over 22 years ago, a small group of men with courage, vision and a faith in the future of St. Paul, decided to pool their purchasing power, and the St. Paul Co-operative Association was born.

Following countless small meetings and discussions, the group decided to organize their own business enterprise. On May 18, 1932, this co-operative was incorporated as the St. Paul District Co-operative Association.

For the first few years, the St. Paul Co-op operated as a buying club by purchasing many of their needs in car loads. Such things as petroleum products, tires, were not.

flour and apples were handled by this new business. Actually, the first effort was a card of abstinence, the results encouraged further development.

In 1938, the members of the co-operative officially changed their name to the St. Paul Co-operative Association Limited. This is the present-day name of this organization.

Little did the dreamers of the early 1930's realize just how rapid their younger would grow. Today a host of courageous men with a vision of better things for themselves and their families is to be attained by pooling their purchasing power.

WE'VE GROWN IN 32 YEARS

New Members Help St. Paul Co-op To Finance

YOUR EQUITY

At the end of each business year, all surplus earnings are returned to the members according to their patronage during the past year. This is not returned in cash, but rather, is credited to your membership number. This becomes your equity in the St. Paul Co-operative.

This money is retained by the Co-operative and is used to purchase new facilities and service. Your St. Paul Co-operative is owned by the members it serves, and the members in turn assist the Co-operative in financing by letting the Co-operative use of their own equity.

Actually, your equity can be looked upon as a good savings account that is continually growing without the member contributing any actual cash. The more you patronize your St. Paul Co-op, the bigger your equity will grow.

CASH PATRONAGE REFUNDS

Whenever your Co-operative has a surplus of cash, the Board of Directors may decide to make a cash patronage refund. The amount of money that you receive in cash will be etc. based on the size of your equity. It pays and pays to make your equity grow by patronizing your St. Paul Co-operative.

CASH
\$98,863.00

has been returned to the members of the St. Paul Co-op in the past 9 years. (Cold hard cash to be used again!)

ST. PAUL CO-OP HELPS ST. PAUL
\$208,271.00

This is the amount of money that the St. Paul Co-operative paid out directly to the community in 1963. This money was paid in the form of salaries, savings, loans, utilities, traveling etc. Most of this large sum of money was used again in the purchase of goods, in the community to the benefit of all in St. Paul.

LET'S LOOK AT 400,000 COMMUNITY DOLLARS

This \$400,000 has been saved by the owners of the St. Paul Co-operative Association — your friends and your neighbors. They did these people save this amount of money? Simply because they POOLED their PURCHASING POWER by patronizing their own business. Co-op members were the first to benefit from these savings, but they won't be the last! OUR COMMUNITY BENEFITS TOO, because these consumer dollars are kept here in St. Paul. This is true DEMOCRACY — Co-op members and owners are helping their community by helping themselves. CO-OPS ARE COMMUNITY BUILDERS!

Farmers Have To Change With The Times To Stay In Business

Marketing Is Big Problem

A special meeting of the Farmers Union members of District 4 held at St. Paul, Thursday, ended again and again the fact that the farmer must adapt himself to the fast changing times if he is to stay in business and get his fair share of the national income.

The single fact was predominant over the rest of the meeting. It was stressed by Union President Peter Farnsworth in his address, made up for more clarification during the past discussion on the "Effects of Economic Forces on Agriculture" and was thoroughly accepted by the members of the Union.

The meeting was opened at the St. Paul Hotel by Dr. Peter Farnsworth, President of the Farmers Union of Alberta. He addressed the members of the Union and stressed the fact that the farmer must adapt himself to the fast changing times if he is to stay in business and get his fair share of the national income.

Good Show By St. Paul

St. Paul business men stole the show on the Highway 36 Motor Cavalcade from Courts to Lac La Biche last Friday by more than doing the number of cars. The point was made quite clear at Lac La Biche during the special meeting and the comments from the bystanders as the cavalcade drove in focused attention on St. Paul and the performance they put on.

We are sometimes prone to criticism about co-operation and participation, but it makes us feel good to realize that we have in St. Paul some of the most progressive business men and a Chamber of Commerce working for the welfare of the town.

Although Highway 36 is not one of the most important highway routes to St. Paul, good roads are good for everyone, and with that in mind, the Chamber gave its full support to the people from the south and north who are trying to promote a better link from the south to north on Highway 36.

The meeting with the Minister of Highways and Cabinet members of the Provincial Government, was frankly, from our point of view, a little disappointing.

Mr. Taylor, of course, was very courteous, as he always is on these occasions, and expressed his pleasure at welcoming the caravan in Lac La Biche.

However, his address left little hope for anything more than the slow development of Highway 36, in conjunction with and as it would fit with the expansion of the Alberta network of highways.

St. Paul's mayor expressed the hope that the "squeaking wheel" gets more attention, but Mr. Taylor brushed that off sanctimoniously by reiterating that the only consideration given to construction is strictly based on needs. To which Dr. Bourcier, President of the Chamber of Commerce at Lac La Biche replied that if the squeaking wheel gets no consideration, at least it brings attention to its needs for an oil job.

All in all, the cavalcade was a tremendous example of co-operation between a number of Chambers of Commerce and will no doubt be recorded in the files of the Department of Highways, and may come up for more consideration in the future. We are looking forward to concrete action on this road without again pointing out the urgent need for construction of highways which directly affect St. Paul, such as 28 east and our famous connecting road from St. Paul to the north, linking with 28A.

Managing Your Money

You can buy insurance at what seem cheap rates to protect dependents in case you die early. Because of this, some people contend that the best way to build a personal estate is to invest most of your savings wisely, leaving only enough money over to buy insurance protection for a limited period of years. This is a very shortsighted view. This most insurance men say you're better off buying permanent insurance with a substantial savings element. Their case is built on two additional and important unknowns.

Can the individual find places for his money that will produce results better than those achieved by life insurance companies? Will he systematically improve the difference between the cost of his pure insurance protection and the cost of permanent insurance with a savings element? Insurance men generally doubt that many people will be able to do this. You would have to earn 5-8 percent and possibly more just to match the results of a permanent whole-life insurance policy.

Many individuals know that such an investment performance, though possible, can be difficult to achieve. They also know how hard it is to discipline their spending enough to actually invest the regular savings. A new car or a trip to the coast frequently gets priority. The real choice is not whether to buy term or permanent insurance, but, for most insurance buyers, how much of each?

ST. PAUL LINES UP TO JOIN HIGHWAY 36 MOTORCAVE
With a block of the main street cleared, St. Paul business men led in an over 40 cars to join the High way 36 Motor Cavalcade from Courts to Lac La Biche. In this "Aerial" view we see the leading car with Highway President E. Hartley leading out of town for Lac La Biche.

Reason To Be Proud

The opening of the new family recreation centre may not have made an impression with the weatherman, but it certainly caught the eye and the fancy of visiting dignitaries and the whole community who joined in to mark the historic occasion on Monday, obvious of the rain and mud which mired the grounds and spread all over the new building.

Centennial officials from both the federal and provincial governments were impressed with St. Paul's effort in centennial activities and pointed to this community as an example to follow across the country.

It was a big moment when Mr. Robert Choquette, Associate Centennial Commissioner, cut the ribbon to officially open the centre. But these big moments just don't happen. They are the culmination of years of tireless effort on the part of energetic leaders supported by conscientious members of the community.

The St. Paul Chamber of Commerce well recognized as incentive behind the planning and the body around which all other organizations rallied to make the project a reality.

In its second year, the Family Day idea seems to have caught on as hundreds of parents with their children — the entire family — trooped in spite of the mud to give the "kids" one great big day.

The practical aspects of the new centre were brought into focus as the big crowds took refuge from the weather in the spacious building. Enjoyed, so down to lunch, visited the arts and crafts exhibits in comfortable leisure.

In spite of the few flaws and odd criticism which it is hard to get away under any circumstances in such a large enterprise, there is justifiable pride to feel proud of this new Family Recreation Centre which is just at its initial stage.

With continued leadership such as has been displayed so far, and support of the public, we can look forward to a complex which will eventually be a very valuable asset to young and old of this town.

Time To Get Ready

When all the facts and probabilities on the economic front in Canada are put together, it is increasingly apparent that the present economic prospect is the brightest of the entire postwar period. Ottawa's recent announcement that 1964 spending on new facilities might be 1.6 percent higher than in 1963, instead of the 8 percent predicted earlier this year, reveals the sweep and trend of the new boom. This is the sharpest year-to-year increase since 1956 and spending on this scale will plainly regenerate the economy's superchargers for many months to come.

The immediate outlook is also brightened by this important fact: Despite its remarkable length, the current expansion has not been accompanied by excesses in inventories and prices which brought the 1954-56 expansion to an abrupt end. Stocks of goods, by and large, do not appear to be out of line with current or expected sales. Prices, especially at the wholesale level, are demonstrating remarkable stability. Both these things augur well for the longevity of the new boom.

The longer-term outlook is highly attractive. Starting perhaps as soon as 1966, a new wave of family formations could begin. That's the point at which the bumper crop of wartime and postwar babies will begin marrying, buying appliances and all the other paraphernalia of modern homemaking. In prospect, too, is a surge of business spending on new facilities during the next decade. Investment to replace the increasingly obsolete machinery installed in the 1950s and old new facilities could be double the amount of the post decade. It suggests a long-term new job creation and profitable corporate operations.

FAMILY PARADE WINDS DOWN MAIN STREET HEADED BY RCMP
The Family Recreation Day parade, which started at 10 a.m. on Monday, winds its way down main street to start off official opening ceremonies of the Centre Monday. It was delayed for three hours due to unfavorable weather, but more of this day's parade was seen by the thousands who fully decorated their lakes and commercial other attractions. Those participating in the parade were from the Glenview, Maplewood, Columbia Heights, the Hammett, and the St. Paul's parades. The parade was headed by the RCMP.

The *Canadian Health Services Commission* report has made a crystal clear that Canada's health care system is in need of the welfare state. Canadarians are taken with not a revelation, but a confirmation with the problems of our unemployed, our sick and our elderly. The report was released today, July 8, by the Minister of Health of the Canadian government.

The unanimous approval at the meeting of the Council in Montreal continued — "There is a need for a comprehensive approach to the health and preservation of national health should be a primary objective of government."

The recommendations of the Health Services Commission are not without questions, but with a few such long term implications that the government should immediately take action should be asking them.

Education, training, research of our local hospitals and health care facilities.

The undertaking of large expenditures means that the government should be able to improve effectively the health care system, to remain competitive in the free market.

Research and development for our people and continued growth.

While negative the issues be resolved in the national atmosphere of the health care system, the government before recommendations before the system are not the government's responsibility. The government's perspective the rounding of the health care system and uncertainty will be the government's responsibility.

Canada, The Canadian government should be of common sense.

MR. AND MRS. J. LANGEVIN

Ceremony Unites Mallaig And St. Vincent Couple In Marriage

—Langevin—

Reports of distant and form-laden the altar of the Mallaig (St. Vincent) for the wedding of Miss Anne Mallaig and Mr. J. Langevin.

Mr. J. Langevin, a resident of the Mallaig, was married to Miss Anne Mallaig, a resident of St. Vincent, in a ceremony held at the Mallaig, St. Vincent, on August 10, 1964.

The ceremony was officiated by Rev. J. Langevin, who is the pastor of the Mallaig. The ceremony was held in the presence of a large number of guests.

The bride was accompanied by her father, Mr. J. Langevin, and the groom was accompanied by his father, Mr. J. Langevin.

The ceremony was a simple one, with the couple exchanging vows and rings. The ceremony was held in the presence of a large number of guests.

MR. AND MRS. V. CHRAPKO

Marriage Vows Pledged In St. Basil's Church, Edmonton

Edmonton—The wedding of Miss Basil's Church in Edmonton, Alberta, was held on Wednesday, August 26, 1964, at 11:00 a.m. The bride, Miss Basil's Church, was the daughter of Mr. and Mrs. V. Chrapko. The groom, Mr. Basil's Church, was the son of Mr. and Mrs. V. Chrapko. The ceremony was officiated by Rev. J. S. Chrapko. The bride wore a white gown and the groom wore a tuxedo. The wedding party included Miss Basil's Church as the maid of honor and Mr. Basil's Church as the best man. The reception was held at the home of the bride's parents.

Attendance At School Very Important

At the beginning of each school year, many parents are reminded of the importance of attendance. It is a fact that children who attend school regularly are more likely to succeed in their studies. Parents should make sure that their children are present at school every day. If a child is absent, the teacher should be notified immediately. Regular attendance is essential for a child's education.

Leadership Camp For 4-H Members At Goldeye Lake

Forty-two Alberta 4-H members and their parents, as well as their leaders, are attending a Leadership Camp at Goldeye Lake, near Edmonton, from August 27 to September 1. The camp is being held at the Goldeye Lake Campground. The program includes a variety of activities designed to develop leadership skills in the young people. The camp is free of charge.

The St. Edward R.C. Church in Edmonton, Alberta, was the site of a beautiful wedding ceremony on Wednesday, August 26, 1964. The bride, Miss Basil's Church, was the daughter of Mr. and Mrs. V. Chrapko. The groom, Mr. Basil's Church, was the son of Mr. and Mrs. V. Chrapko. The ceremony was officiated by Rev. J. S. Chrapko. The bride wore a white gown and the groom wore a tuxedo. The wedding party included Miss Basil's Church as the maid of honor and Mr. Basil's Church as the best man. The reception was held at the home of the bride's parents.

Green Acres

By JOHN MINE, B.A.

Have you ever thought of the progress that is being made in the world of agriculture? It is a fact that the world is becoming more and more green. The progress is being made in many ways. One way is by the use of modern machinery. Another way is by the use of modern fertilizers. A third way is by the use of modern irrigation systems. All of these things are helping to make the world a greener place.

Stocking Of Fish

To some people, the news stories released last week about planting rainbow trout may not be an important item. But to many others and especially great incentive for tourist attraction if the fingerlings survive for the next summer.

This has not come about overnight. Members of the St. Paul Fish and Game Association with neighboring help and assistance from the local game wardens have been working to promote this project. It is not the first time rainbows have been planted. Many will remember the unfortunate experiment in Thoburn Lake where thousands were released, but disappeared. It is believed due to winter kill or unfavorable chemicals in the water.

Although a careful testing program preceded planting of the fish in Lac Bellevue, and the results indicate that conditions are as near favorable as can be expected, there are many unpredictable factors and only actual experience with live fish will tell the story.

Rainbow trout have been found to live well in small ponds, free from predation by larger and other species of fish.

When it was discovered that a boy on the east of Lac Bellevue had the potential, the Fish and Game Association organized a bee and in no time the lake had a dam constructed across the quarter mile space to cut it off from the main body. The existing fish were killed and the fingerlings planted.

The St. Paul Fish and Game Association is not stopping there. Realizing that fishing is not only for adults, but that young boys probably get more thrill out of it, they plan to excavate a suitable dug-out at the exhibition grounds, near the race track, and plant some there next year, exclusively for boys and nobody else. Sounds pretty good, eh, fellows?

Look Out... Labor Weekend

Let's make this Labour Day week end the softest ever. It marks an end to the good old summer time and many summertime sports.

The Alberta Sports Council suggests we look back at the accident casualties over the Dominion Day holiday to give us some ideas on how to prevent some of the problems we face. During the July 1st merry making, 4 Albertans were killed.

Since the Labour Day week end is traditionally the last opportunity each year for most families to get away for a fun spree before settling down to the fall and winter season, the temptation is probably much greater to overeat themselves.

The unfortunate result is that we attempt to crowd too much into this holiday opportunity. Many will press too hard, hurry too much and take too many unnecessary chances.

This will make Labour Day a special problem, and a very tough problem from an accident prevention point of view, according to the Provincial Safety Council.

Of course safe driving to and from recreation areas can't be over-stressed. Be sure that all the passengers in your car use seatbelts. Allow plenty of time for your trip and adjust your speed to traffic, road and weather conditions. Obey traffic laws and signs and don't drink before driving. Be alert for mistakes of other drivers which could result in a collision. If you obey these rules, your trip should be less tense and more enjoyable.

Unselfish Response

Although it was a cold, rainy, dark and overcast night, over 400 St. Paul residents unselfishly responded to an appeal for help and joined the search for a lost three-year-old boy Friday night at Mallot.

This kind of response is outstanding and keeps up our faith in human nature when such a valiant corps will turn out to help a neighbor in distress. St. Paul people have been more than responsive to any distress call and it has been particularly noted this summer during several lost incidents and in the case of fires out in rural areas. Although the fire department may not bring out its brigade, auxiliary equipment and men are always available and on the spot when called.

In Mallot, it was a tremendous effort on the part of the police, the residents of Mallot and the district who responded to the call. Some came well equipped with lights, hip waders, rain coats and protective gear, but many arrived in light clothes, but nevertheless took part in the search and the search for the child which lasted until four o'clock in the morning.

We met the parents after the ordeal and they asked us to convey their special thanks to St. Paul residents and all those who spent the night looking for their child.

Black Bridge Disappears

A land mark which has been particularly dear to young and old in St. Paul, disappeared last night, was the little old bridge, 1 mile west and south of St. Paul, better known as "Black Bridge" which gave way to more practical modern construction.

The little bridge was torn right off its roots and in its place a huge 5-foot culvert was installed to carry the flow of the creek into One Mile Lake.

The children of every decade, especially in the spring, when nature called, spent many enjoyable carefree hours, watching and listening to the brook run, net minnows, or just plainly getting wet with all the exuberance and ecstasy that is youth. It was lovely site for picnics by school children, Cubs, Scouts and older groups on warmer nights in the evening.

And when we grew up, there was no better place than Little Black Bridge to do a little sparkling under the light of the moon.

Now the bridge was christened "Black Bridge," nobody knows, perhaps because of the tar applied for protection, but the name stuck and had been handed down for generations.

The new culvert, we have no doubt, will be more efficient. There will be no stanchions and boards to rot and replace, but it will never be the same again.

Hunters - Be Prepared

Every year many hunters and hikers get lost in the bush. Some find their way out eventually; others are rescued by search parties; and some others don't make it out alive. If you're planning a hunting trip this fall or winter, keep in mind a few simple precautions to avoid this happening to you. If you leave your base camp, take enough ration for several days and equipment for making a long hike out of the topographical map of the area before leaving, and take a dependable compass.

Child's Study Area

September means back-to-school for our elementary and secondary school children. The beginning of a new school year is a good time to take a look at your child's study area. Is it large enough? Is it away from television noises and other potential distractions? Is it bright, cheerful and uncluttered? Is the lighting adequate? The lighting is particularly important, or inadequate lighting will lead to eye strain and a subsequent loss of efficiency and interest. Remember that ceiling lights alone are not enough - there should be a non-glare light close to the reading subject.

Stop Smoking

Many people express a wish to stop smoking but say they need some help in breaking their "addiction." They cast about for drugs or pills which will eliminate their desire for a "fog." Now, a fool-proof formula has been found: it is called "determination" and its secret ingredient is "will-power."

Big culvert replaces little "black bridge"

There was a roadside tale in the minds of workers as they worked little black bridge in place for a modern and convenient culvert to replace the wooden structure which required too much maintenance. The new culvert was built on the site of the old bridge which was torn off its roots in the background. Lower picture, the huge 5-foot high culvert which is fast in the bottom and around itself will allow for the flow of water. Black bridge had the demolition contract from the County of St. Paul.

LABOR DAY WEEK-END MAY BE YOUR LAST; DRIVE CAREFULLY

The long Labor Day weekend will continue to see an increase in the number of vehicles on the road.

Many accidents have occurred on the roads during the last few days of the week.

It is urged that drivers exercise extra caution and drive carefully during this busy period.

Only those who have lost one of their loved ones will know how much the loss of a loved one means.

It is a great loss to the family and the community.

It is a loss that cannot be replaced.

It is a loss that will be felt for many years.

It is a loss that will be remembered forever.

It is a loss that will be a constant reminder of the love that was lost.

It is a loss that will be a constant reminder of the life that was lost.

It is a loss that will be a constant reminder of the person that was lost.

It is a loss that will be a constant reminder of the love that was lost.

It is a loss that will be a constant reminder of the life that was lost.

It is a loss that will be a constant reminder of the person that was lost.

It is a loss that will be a constant reminder of the love that was lost.

It is a loss that will be a constant reminder of the life that was lost.

It is a loss that will be a constant reminder of the person that was lost.

It is a loss that will be a constant reminder of the love that was lost.

It is a loss that will be a constant reminder of the life that was lost.

It is a loss that will be a constant reminder of the person that was lost.

It is a loss that will be a constant reminder of the love that was lost.

It is a loss that will be a constant reminder of the life that was lost.

It is a loss that will be a constant reminder of the person that was lost.

It is a loss that will be a constant reminder of the love that was lost.

GREEN ACRES

By JOHN MURRAY, S.A.

What should I do with my green acres? This is a common question these days. The answer is simple: use them to produce food. The soil under the green acres is rich and fertile. It is a good idea to plant a variety of crops. This will ensure that you have a steady supply of food. It is also a good idea to use the land for other purposes. For example, you could use it for a garden or for a small farm. The possibilities are endless.

Last Friday night the St. Paul Agricultural Society held its 1964 annual meeting. The meeting was held at the St. Paul Hotel. It was a very successful meeting. The society has a long history. It was founded in 1904. It has since grown into one of the largest agricultural societies in the province. The society's main purpose is to promote agriculture in the St. Paul area. It does this by holding meetings, giving out information, and by other means. The society is very active. It has many projects going on at the moment. It is a very important organization for the area.

LOANS FOR STUDENTS

Guaranteed by the Government of Canada

Purpose: The purpose of the Canada Student Loans Act is to facilitate bank loans for students who need financial help to continue full-time studies beyond secondary school level in Universities and other educational institutions.

Who can apply: Any Canadian citizen, or anyone insured by Canada for a year who intends to live in Canada after completion of studies, may apply for a loan under the Act. An application must be made to a bank or a financial institution approved by the Government of Canada. The bank or financial institution will then forward the application to the Government of Canada. The Government of Canada will then decide whether to approve the loan. If approved, the bank or financial institution will then provide the loan to the student.

Amount of loan: Depending upon individual circumstances and financial need, loans up to \$1,000 a year may be made, with a maximum of \$3,000 during a student's academic career. The Provincial Authority receiving applications and determining eligibility will issue a certificate to each eligible student stating the maximum amount of the loan they are eligible for. The Certificate of Eligibility is required before a student can arrange a Government Guaranteed Student Loan with the bank of his choice.

Repayment: Loans are repaid by the student during the period a student continues full-time studies, and for six months thereafter, by the Government of Canada. During this time, the student is not required to make any payments. After the six-month period, the student must begin repaying the loan. The repayment is made in installments. The amount of each installment depends on the student's income. The student must continue to make payments until the loan is fully repaid.

Interest: The interest on the loan is 10 percent per year. The interest is compounded annually. The interest is added to the principal of the loan. The student must pay the interest on the loan. The interest is paid to the Government of Canada. The student must continue to pay the interest until the loan is fully repaid.

When to apply: Students must apply in Alberta, regardless of where they intend to study, should apply for a Certificate of Eligibility to:

Alberta Student Loans Board,
Department of Education,
Edmonton, Alberta.

CANADA STUDENT LOANS ACT

The Canada Student Loans Act is a law that provides financial help to students who need it to continue their education. The law was passed in 1964. It has since been amended several times. The law is very important for students who need financial help. It allows them to get loans from the Government of Canada. The loans are guaranteed by the Government of Canada. This means that the student does not have to worry about repaying the loan. The Government of Canada will take care of that. The student only has to focus on their studies. The law is a very good thing for students. It helps them to get the education they need. It is a very important part of the Canadian education system.

REPORTS FROM PARLIAMENT HILL

I think it would be fair to say that our Government is not doing the best job it can in the area of agriculture. The Minister of Agriculture has been criticized for his handling of the situation.

The Minister of Agriculture has been criticized for his handling of the situation. He has been accused of being out of touch with the farmers and of not doing enough to help them.

Vitamins

Now the school bus started. It couldn't be that very thing we will be like the fall and winter season is always associated with an increase of colds and influenza. It has been proven that an adequate vitamin supplementation now and continuing through the fall and winter does help reduce the incidence of these ailments and time wearing accessories. For a very small daily cost you can take these vitamins to insure yourself and your family a healthier and longer winter season.

Each year, many of you members remember how easy it is to administer, please giving vitamins to those you care for. Your children. Each tablet supplied to the member adequate supplementation of essential vitamins for you. This year the price of these vitamins is down from \$1.00 to \$0.75. \$0.75 per bottle and \$0.75 per bottle. \$0.75 per bottle and \$0.75 per bottle.

Hope For Retarded Children

A few years ago when a child was born with some defect and classed as a retarded child, there was not too much hope for him or her.

To day with the advancement of science, new methods of education and teaching and a greater incentive by the parents of these unfortunate children and the help of government, there is hope.

Last week in St. Paul, a class for retarded children was opened in a room specially prepared and provided by the board of the public school.

Perhaps, many of us who have sound children, have been hiding our heads in the sand like ostriches afraid to see and understand the problems of the children of these children face and of the predicament of the children themselves.

Many of us who have healthy children should thank God and at the same time lend a sympathetic hand towards affliction of others. We hope you have responded generously to the appeal made by the St. Paul Retarded Children's Association for materials needed for these children and the classrooms. (See Journal of September 17th).

If not, it is never too late and your contribution both financially and morally will be a great comfort.

We want to recognize the efforts of the St. Paul Retarded Children's Association and in the words of Mrs. Del Sudnik, President who officiated opening the class, "We hope its doors will never close."

Preventive Dental Practices

There's nothing like seeing to believe! Unfortunately there were too few dentists to see what the ravages of dental decay can do, at a seminar held in St. Paul last week.

After seeing some vivid color slides on the screen followed by explanations of the lecturers on what can happen to teeth that are neglected it simply made the speaker and resolve to send our children more often for check by a dentist.

And there is the point of the whole reason for the Seminar. Preventive medicine is the solution to dental decay and if the people of this province and Canada learned that lesson, the incidence of dental trouble would be reduced by as much as ninety per cent.

It was pointed out that adults will take care of their teeth, but children must depend wholly upon the attention of their parents. It is not always neglect but unawareness, lack of education on the part of the guardians who allow mouths of their children to deteriorate to a degree which becomes very costly to correct when emergencies arise.

If the people could only realize and understand how little preventive dental care costs compared to corrective surgery in the later stages of life, there would be a tremendous trend towards prevention.

In the words of one Dentist, we have the means at our disposal, but a great lack of understanding.

Why Taxes Keep Climbing

It is increasingly clear that another strip, and probably a large one, may soon be torn from the tax payer's hide. Ottawa is plainly determined to introduce as soon as possible a national health plan based on the Hall Royal Commission report. This decision has been taken even before the effects of the proposed Canada Pension Plan's implications can be even partly assessed. It is also a decision that is likely to have been taken with blithe disregard for urgent spending needs for education.

If the health scheme presented by the Hall people were in full operation today, the Canadian Tax Foundation says, an extra \$915 million would have to be raised through Canada's tax system on top of the \$7.750 million now extracted by Ottawa and the provinces from its citizens. This could be done in several ways. It could come from corporation taxes. That would raise the rate to a ludicrous 74 1/2 to 76 per cent of all earnings. It could be raised by higher federal manufacturer's sales taxes. This would push the rate from 8 1/2 to 19 per cent. Or it could be done by increasing everyone's income tax by almost 50 per cent. The extra \$915 million to be raised from the public is not, in one way, quite as horrifying as it looks. Since all health expenditures would be paid by the government, consumers would have left in their hands all \$700 million that they would otherwise use to pay individual health bills. The point of the Foundation study, however, is entirely valid. This is money to be raised publicly. It is bound to have an enormous effect on our tax structure, on product costs and on our national power to compete in international markets.

Council Buys Town Hall Plot

Specialty use started for the town hall plot in St. Paul, Alberta. The town hall plot in St. Paul, Alberta, was purchased by the town council for \$100,000. The plot is located in the town of St. Paul, Alberta, and is used for the town hall.

According to the regulations and conditions set out in the Town and Village Act we have bought the town hall plot for the town of St. Paul, Alberta.

Financial committee also approved the purchase of the town hall plot for \$100,000. The plot is located in the town of St. Paul, Alberta, and is used for the town hall.

Etudiants Sen Les Bienvenues

Back in the university, we have a lot of students who are coming from all over the world. They are here to study and to learn. We are very happy to have them here.

We want to recognize the efforts of the St. Paul Retarded Children's Association and in the words of Mrs. Del Sudnik, President who officiated opening the class, "We hope its doors will never close."

Preventive Dental Practices

There's nothing like seeing to believe! Unfortunately there were too few dentists to see what the ravages of dental decay can do, at a seminar held in St. Paul last week.

After seeing some vivid color slides on the screen followed by explanations of the lecturers on what can happen to teeth that are neglected it simply made the speaker and resolve to send our children more often for check by a dentist.

And there is the point of the whole reason for the Seminar. Preventive medicine is the solution to dental decay and if the people of this province and Canada learned that lesson, the incidence of dental trouble would be reduced by as much as ninety per cent.

It was pointed out that adults will take care of their teeth, but children must depend wholly upon the attention of their parents. It is not always neglect but unawareness, lack of education on the part of the guardians who allow mouths of their children to deteriorate to a degree which becomes very costly to correct when emergencies arise.

If the people could only realize and understand how little preventive dental care costs compared to corrective surgery in the later stages of life, there would be a tremendous trend towards prevention.

In the words of one Dentist, we have the means at our disposal, but a great lack of understanding.

Why Taxes Keep Climbing

It is increasingly clear that another strip, and probably a large one, may soon be torn from the tax payer's hide. Ottawa is plainly determined to introduce as soon as possible a national health plan based on the Hall Royal Commission report. This decision has been taken even before the effects of the proposed Canada Pension Plan's implications can be even partly assessed. It is also a decision that is likely to have been taken with blithe disregard for urgent spending needs for education.

If the health scheme presented by the Hall people were in full operation today, the Canadian Tax Foundation says, an extra \$915 million would have to be raised through Canada's tax system on top of the \$7.750 million now extracted by Ottawa and the provinces from its citizens. This could be done in several ways. It could come from corporation taxes. That would raise the rate to a ludicrous 74 1/2 to 76 per cent of all earnings. It could be raised by higher federal manufacturer's sales taxes. This would push the rate from 8 1/2 to 19 per cent. Or it could be done by increasing everyone's income tax by almost 50 per cent. The extra \$915 million to be raised from the public is not, in one way, quite as horrifying as it looks. Since all health expenditures would be paid by the government, consumers would have left in their hands all \$700 million that they would otherwise use to pay individual health bills. The point of the Foundation study, however, is entirely valid. This is money to be raised publicly. It is bound to have an enormous effect on our tax structure, on product costs and on our national power to compete in international markets.

Etudiants Sen Les Bienvenues

Back in the university, we have a lot of students who are coming from all over the world. They are here to study and to learn. We are very happy to have them here.

According to the regulations and conditions set out in the Town and Village Act we have bought the town hall plot for the town of St. Paul, Alberta.

Financial committee also approved the purchase of the town hall plot for \$100,000. The plot is located in the town of St. Paul, Alberta, and is used for the town hall.

To day with the advancement of science, new methods of education and teaching and a greater incentive by the parents of these unfortunate children and the help of government, there is hope.

Last week in St. Paul, a class for retarded children was opened in a room specially prepared and provided by the board of the public school.

Perhaps, many of us who have sound children, have been hiding our heads in the sand like ostriches afraid to see and understand the problems of the children of these children face and of the predicament of the children themselves.

Many of us who have healthy children should thank God and at the same time lend a sympathetic hand towards affliction of others. We hope you have responded generously to the appeal made by the St. Paul Retarded Children's Association for materials needed for these children and the classrooms. (See Journal of September 17th).

If not, it is never too late and your contribution both financially and morally will be a great comfort.

We want to recognize the efforts of the St. Paul Retarded Children's Association and in the words of Mrs. Del Sudnik, President who officiated opening the class, "We hope its doors will never close."

Grain Bins Should Be Cleaned Out

Prevention Against Borer

The spraying of many grain bins for borer is a good opportunity to clean out the bins. Grain borer is a pest that can cause serious damage to grain. It is important to clean out the bins to prevent the borer from infesting the grain. The spraying should be done before the grain is put into the bins. This will help to prevent the borer from infesting the grain.

Some things grow faster than others!

Just as some plants grow faster than others because of favorable conditions, so savings achieve a healthy rate of growth in the encouraging financial climate of the Treasury Branch. Even a small seedling of a new Savings Account earns 3 1/2% at your Treasury Branch, where interest is added twice a year. Under this kind of treatment, it will soon become a fine young sapling money tree.

Don't be shy if your money tree isn't very tall right now... a single dollar is enough to start a regular Savings Account at your Treasury Branch. Cultivate the saving habit, and see how fast your money grows in the sunny climate of Treasury Branch interest rates!

Remember - We Pay 3 1/2% Interest On Regular Savings Accounts.

'65 METEOR—proud, exciting, luxurious:
Now new! For a start, there's Meteor's added size, new suspension and frame, and her new 140 horsepower V-8, giving her the best of both worlds. And you'll see why people will think it costs a lot more than it does!

'65 COMET—for fun with a touch of luxury
Young, spirited and as luxurious inside as it looks outside! But don't just look at it. Drive it. You'll take to it. Drive it. You'll take to it.

'65 MERCURY—rich in the Lincoln Continental tradition
Quietly, unmistakably distinctive... a superbly engineered and beautifully appointed automobile. This is Mercury for 1965, with refinements in ride, handling and performance that make every road feel like a red carpet.

Now new! For a start, there's Meteor's added size, new suspension and frame, and her new 140 horsepower V-8, giving her the best of both worlds. And you'll see why people will think it costs a lot more than it does!

'65 COMET—for fun with a touch of luxury
Young, spirited and as luxurious inside as it looks outside! But don't just look at it. Drive it. You'll take to it. Drive it. You'll take to it.

'65 MERCURY—rich in the Lincoln Continental tradition
Quietly, unmistakably distinctive... a superbly engineered and beautifully appointed automobile. This is Mercury for 1965, with refinements in ride, handling and performance that make every road feel like a red carpet.

These Moves Really Matter

There has been in the recent speeches of Quebec's leading thinkers an increasing awareness of the many hard realities which militate against a separate state for Quebec. Now the most encouraging development of all has taken place: Premier Lesage, in his Canada of Tomorrow speech to the Canadian Club of Montreal that Quebec is not opting out of Canada. For the benefit of a doubtful public, he stated that the Canadian political framework "grounded as it is on historical, geographical and economic realities, is resilient enough to secure the permanency of a country that stretches from coast to coast." This clear-cut statement should be interpreted as further evidence that the premier is deliberately gathering in the reins of his province to lead it on a moderate course in a more modern Canada. Earlier indications that this was taking place have been largely overlooked and the excesses of separatist and terrorist statements have instead been given wide attention in Canada and abroad.

Perhaps even more encouraging for those who very much hope that this country will survive is the fact Mr. Lesage now apparently believes that the majority in his province will agree and follow him. This suggests that he is confident of wide support even if the so-called "youth vote" bolts from the Liberal party and rallies, as it has been rumored, around Rene Levesque. Liberal victories in all four of Quebec's by-elections this week are an indication that Mr. Lesage has reason for confidence. Premier Lesage is not advocating the status quo. He has stated that tomorrow's Canada must be a bilingual country as a working language in the federal administration; French as a teaching language for French minorities outside Quebec; and a genuine decision-making of powers, resources and decision-making in the federal system.

Co-ops Fill Important Needs

Since the first Alberta Co-operative Act was passed in 1913 Co-operatives have filled an increasingly important need in providing services for their members and the public. The concept of co-operatives, as envisioned by the Rochdale Pioneers in 1844, has been broadened and expanded so that in this province the consumer movement, while important, is but only an integral part of a much larger movement.

Co-operatives are groups of people who have formed together for the common good and to provide services at cost. They have provided a means whereby electric power has been distributed over the whole province. Money is loaned and borrowed through credit unions. Insurance of all types is available and many districts have fire protection, gas distribution, seed cleaning plants and machinery pools. Our farmers have set up co-operatives to supply all their household and farm supply needs as well as marketing co-operatives to sell practically everything they produce.

Possibly the most important aspect of this co-operative development has been the training ground provided for a large number of our people to acquire the operational knowledge of their organizations, to share the economy in which they live, and thus insuring responsible citizenship.

May we extend to all our co-operative friends sincere wishes for "Co-op Week" and the year's ahead, during Co-op week, October 11 to 17.

Be what you are. This is the first step toward becoming better than you are — Julius Rose.

Don't be afraid to take a big step if one is indicated. You can't cross a chasm in two small jumps. —David Lloyd George

Quality Pays When You FALL FERTILIZE

You can trust Elephant Brand Quality. It's the quality backed by more than 30 years of experience. The quality that has proved itself in performance on thousands of farms across western Canada. That's why Elephant Brand has the leading fertilizer in the West.

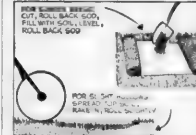

It pays off in higher profits. Farm tests prove that a fall application of Elephant Brand means bigger yields and higher profits for the farmer. On the average, Elephant Brand tests on wheat and soybeans averaged an extra net profit of \$1.70 per acre. And 10 tests on large acreage in wheat and corn of \$1.50 per acre in each case for the extra profit after paying for the fertilizer.

Ready for Immediate Delivery. Your Elephant Brand dealer has stock on hand to meet your needs right now and give you the best price, prompt, dependable service. And fast delivery to your farm. See your dealer today and reserve a spring order!

How should I build my home this winter?

There are many factors to consider when building a home. The first is the location. The second is the design. The third is the construction. The fourth is the finishing. The fifth is the maintenance. The sixth is the insurance. The seventh is the financing. The eighth is the completion. The ninth is the occupancy. The tenth is the enjoyment.

RUELENE 25E
INSECTICIDE
Do not treat animals after Nov. 25th
Costs from 40¢ to 60¢ per animal depending upon size
The warble grub is a major pest in the cycle of the host fly. The host fly hatches in the spring and lays its eggs on the legs and underparts of livestock. The larvae hatch from the eggs and burrow into the animal's skin and travel through the tissues, upward to the head. This process takes approximately eight months. They then exit holes in the skin to reach the air and eventually to become adult flies, starting the cycle over again.

REMEMBRANCE DAY SERVICES IN ST. PAUL NOVEMBER 11th

Church Services, Parade from the Legion Hall to Cenotaph

Ceremonies at 11:00 a.m.

This space sponsored by the

ST. PAUL BRANCH OF THE CANADIAN LEGION

Couple Celebrate Their 25th Wedding Anniversary

Mr. and Mrs. Mary Bevil celebrated their 25th wedding anniversary on Oct. 10. The celebration was held at the St. Paul Public Branch of the Canadian Legion.

The evening was spent dining at the home of the bride, Mrs. Bevil. About 40 guests attended the celebration.

The bride chose a lovely gown and was accompanied by her bridesmaid, Mrs. Bevil. The groom wore a tuxedo.

The couple were happily married for 25 years. They have three children and several grandchildren.

The celebration was a most enjoyable occasion for all who attended. The St. Paul Public Branch of the Canadian Legion was the host.

The couple will be celebrating their 50th anniversary in 1969. They hope to have a large celebration then.

The St. Paul Public Branch of the Canadian Legion is a proud sponsor of the Remembrance Day services.

The services are held every year on November 11th. They are a time to remember the sacrifices of our veterans.

Government Announces New Course

Alberta Minister of Agriculture, Mr. J. G. McCall, announced today that the government will be introducing a new course of action to help farmers in the province.

Mr. McCall said that the government will be providing financial assistance to farmers who are having difficulty in selling their crops.

The government will also be providing technical assistance to farmers who are having difficulty in growing their crops.

Mr. McCall said that the government will be providing financial assistance to farmers who are having difficulty in selling their crops.

LONG, SLIM, SHORT AND STUBBY

There are four types of men in the world: long, slim, short and stubby. Each type has its own characteristics and its own way of life.

No Clear Answer To Grain Drying Problem Causing Heating

The problem of grain drying has been a major concern of farmers in the province for many years. The problem is caused by the fact that the grain is often dried in a way that causes it to become heated, which in turn causes it to become moldy and unusable.

Mr. McCall said that the government will be providing financial assistance to farmers who are having difficulty in selling their crops.

The government will also be providing technical assistance to farmers who are having difficulty in growing their crops.

CAN YOU AFFORD NOT TO HAVE AN ELECTRIC CLOTHES DRYER?

1 SAVES TIME. An electric clothes dryer cuts laundry time in half - eliminates the hours spent hanging clothes and waiting on the weather. Rain or shine, day or night, you dry clothes in minutes.

2 SAVES LABOR. No more back-breaking trips up and down stairs carrying heavy baskets of washing. An electric clothes dryer helps you gain hours every week by doing your laundry in minutes.

3 SAVES MONEY. An automatic electric dryer operates on a timer. You set it for the temperature you want and it dries your clothes automatically. No need to watch the clothes as they dry. No need to worry about over-drying or under-drying.

RE-UNITED AFTER 57 YEARS

Two brothers who had not seen each other for 57 years were reunited in a short time recently. They are Arthur Preston, left, 78, who left Labrador for Canada in 1907 and returned to Canada in 1964. They parted company in 1907 and met again in 1964. They are now living in St. Paul, Alberta. The little fellow in the middle is a grand-grandson of Mr. W. E. Preston.

Indians Are Uncertain

Probably one of the most momentous leadership conferences promoted by the Saddle Lake Indian Agency was held in St. Paul last week involving five other bands in the area.

Community development was the theme or the main subject. The provincial government upon request brought in some of its top administrators in the fields of agriculture, forestry, home economics, trapping and fishing with the support of the federal administration to brief the Indians and offer help in any of the projects they might want to undertake, for the development of their reserves.

The Indian leadership has been thirsting for knowledge for many years. There is no question that the chiefs, councilors and community leaders understand that to bring up the standard of their people they have to learn to become self-sufficient.

Yet there is still an inherent fear that if they accept help from the government, their treaty rights will be threatened and they will lose many of the social and welfare services they are receiving.

The community development plan is an optional and completely voluntary program under which an agency agrees to accept the services of an area officer who works in co-operation with the Indians and helps them develop economic and social projects for the welfare of the people. Co-operation, and full understanding, was explained as the keynote to the success of the program. A guest speaker at the evening banquet Thursday.

But, the Indians, given the opportunity to question and express their views, were almost unanimous in expressing misunderstanding, confusion, suspicion and fear that they are being led, in the words of one of the commentators, into a "trap" and that they will be left to do all the rough work.

Although, of course this is a misconception, the Indian has grounds for distrust, but much of it is being dispelled nevertheless, as a statement by one of the chiefs, is an indication that the wheels are turning, more, the constitutional inhibition against spending money that sooner or later the Indians will have to take his place in society as a Canadian with the responsibility of paying taxes, and it is only when he does that he will be able to gain self-respect, commitment and be recognized equally as a member of the society who can afford the standard of living and the luxuries that other citizens in this country enjoy.

The solution of the Indian problem in his relation to the white man is still many decades away, leadership conferences such as the Saddle Lake Indian Agency has sponsored at the request of its own chiefs, is an indication that the wheels are turning, and eventually this mutual exchange of ideas and co-operation will develop into understanding that will dispel all doubts, distrust and fear which are still great barriers in the integration of Canada's aboriginal natives into our social and economic life. We all have much to gain.

Help From Higher Government

In some quarters local departments of education have been urged to see in what ways they can effect economies in the school building and equipment. This is fine, but the second recommendation from one newspaper is that the departments explore the feasibility of having provincial and federal authorities take over much more of the tax burden. The more municipal expenses, including the cost of local education, are spread to the province and to the dominion, the more the total cost will be further reduced, the constitutional inhibition against spending federal money on provincial schools should not be completely destroyed.

WINTER IS HERE WITH ITS COLD... AND SPINDERS. We may look at winter apprehensively and longingly when a cold snap such as we have been experiencing hits us early in December. But there are its compensations with winter sports and winter comes like this one captured of a frosty row of trees.

School Drop Outs

There has not been an increase in drop outs to report on the country there has been a steady increase in the number of students who have dropped out of school.

Many educators and writers have commented on the increase in drop outs. Some have pointed to the lack of interest in school, while others have pointed to the lack of understanding of the value of education.

What is a drop-out? We all know it. It is the student who leaves school before completing his or her education.

There are many reasons why a student might drop out of school. Some are financial, some are social, and some are personal.

One of the most common reasons is financial. Many students cannot afford to pay for their education.

Another common reason is social. Many students feel that they do not fit in with the school environment.

Personal reasons are also a factor. Some students simply lose interest in school or have other commitments.

The problem of school drop outs is a serious one. It affects the future of the individual and the community as a whole.

There are many ways to reduce the number of drop outs. Schools can provide more support and resources for students who are at risk.

Parents can also play a role in preventing their children from dropping out. They can encourage their children to stay in school and provide them with the necessary resources.

Society as a whole can also help by providing more opportunities for education and training for young people.

By working together, we can reduce the number of school drop outs and ensure that every young person has the opportunity to succeed.

The solution to the problem of school drop outs lies with us all. We must take responsibility for the education of our young people and ensure that they have the best possible chance of success.

Only by working together can we ensure that every young person has the opportunity to succeed and that the future of our country is bright.

The problem of school drop outs is a complex one, but it is one that we can solve. We must take action now to prevent the next generation from repeating the mistakes of the past.

By providing more support and resources, we can ensure that every young person has the opportunity to succeed and that the future of our country is bright.

The Right To Vote

The importance of the privilege, duty and right to vote was impressed upon ten new citizens who were sworn in by Judge Allen at a court session in St. Paul last week.

Being a Canadian citizen, said the judge is not a privilege to be taken lightly. And yet, right now Canadians who have been born with that right do exactly that. Instead of appreciating their rights they are constantly undermining them and even destroying them, perhaps unwittingly, but nevertheless quite irresponsibly.

One of the statements he made about voting struck a chord. "You have the right to vote," he said. "But this is not a duty to be taken lightly. It is not sufficient to go to a poll and mark an X, but you must vote intelligently, reasonably and thoughtfully, but above all you must exercise your franchise to be truly Canadian."

The results of this and the municipal elections we have held in this area, provincial and even federal indicates that there is some dereliction of duty by many Canadians.

In view of the results we often wonder how intelligently certain factions have voted. Have they taken the time to study the issues at hand to make thoughtful decisions or have they been influenced by the silver oratory and deception of politicians trying to promote themselves, swayed by pecuniary motives and free handouts.

The Judge's remarks should not have been addressed only to the new citizens, but could serve as a lesson to many of us.

We wish to congratulate the new citizens, knowing that they will sincerely accept their responsibilities. There are still many immigrants who have lived in this country for years without taking the trouble to swear allegiance. We often wonder why and believe it only natural that persons coming to live in this country should make the effort within the minimum limit of five years which is their privilege.

Christmas Lighting

After almost a decade of sponsoring the Christmas lighting contest, the St. Paul Jaycees have decided not to promote it this year.

Reason is probably the judging which is getting a little more difficult every year and the stipulation that a winning display cannot qualify for three years.

Be it as it may, the Jaycees have done a fine job of installing Christmas lighting ideas which has brightened our town every Christmas since then. They really deserve the prize. Their effort this year will comprise of one huge tree centrally located in the centre of Town to bring Christmas spirit.

But the fact that there is no prizes for lighting residential and business places is no reason why we should not continue the precedent which has brightened our town every Christmas since then. They really deserve the prize. Their effort this year will comprise of one huge tree centrally located in the centre of Town to bring Christmas spirit.

... Your Dental Health

DISCUSSIONS

A tooth which has been "left" in the mouth often can be lost. It is a good idea to have a dental check-up every year to make sure your teeth are in good health.

A reason your teeth do not stay in the mouth as long as they should is because of poor dental care. It is important to have a dental check-up every year to make sure your teeth are in good health.

A white crown or crown with a metal filling can be a sign of a dental problem. It is important to have a dental check-up every year to make sure your teeth are in good health.

BITTER COLD RAGES IN ST. PAUL

If this picture was in color, the air would be blue. It was taken last Tuesday at the lowest point of the cold snap which registered 21 below and dropped to 10 with a wind chill factor of 10 below. The atmosphere was crystal clear, with no clouds and the stars were visible in the sky.

It was a record for the city, as the lowest temperature was recorded in the history of the city. The wind was from the north and the sun was visible for a few minutes in the afternoon.

GREETINGS FOR CHRISTMAS

"Let us go even unto Bethlehem."
So spoke the shepherds, one to another as they
went to seek and find the Holy Child of whom the
angels sang. This Christmas, let us return
in heart and spirit to Bethlehem
and the sacred manger. Let the miracle
of His birth and the joy of His message ever
be our blessing and inspiration.

As the radiance of that Holy Night shines
across the years and the world
rejoices, our thoughts turn to His
words, urging all to brotherhood, and we
feel it is especially fitting at this
Christmastide to express anew our
cordial greetings and good wishes to our
many valued friends. May your
Christmas be a wonderful one.

Why A Tree At Christmas?

Why a tree at Christmas? One story legend says that, at the time Jesus was born, all the trees burst into bloom on the night Christ was born.

Paul Lusk of ancient times told of a huge tree in a forest, lighted with many candles, and at the time of the birth of Jesus, the tree was so bright that it was as if the sun were shining on the world.

The tree was meant to represent humanity, the candles, people good and bad, and the light, the light of Jesus.

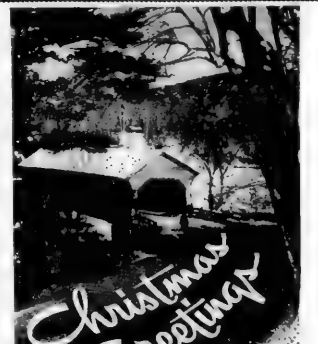

Another explanation, Jesus told of a tree in a forest, lighted with many candles, and at the time of the birth of Jesus, the tree was so bright that it was as if the sun were shining on the world.

Many are the legends, but one thing is certain, Christmas is a time when we should be as bright as the stars.

Message of Christmas Lives

Between you and me...
Did you forget to mail your contribution for Christmas? Well, don't worry. It's not too late. Still, thinking it over, your contribution will help us to fight hunger and other pitiable diseases. If your letter has passed this in the mail, we'll be glad to accept it.

At church, services during this Christmas season, the people of the faith volunteer the services of their hands and hearts to the needy. The gifts of money and food are also being collected. The gifts of money and food are also being collected. The gifts of money and food are also being collected.

Best Wishes for a Merry Christmas and a Happy New Year

With sincere appreciation of your friendship and goodwill.

Food is a Bargain!

Americans today enjoy a higher standard of living than at any time in their history. This is due to the fact that the average American family spends only 13 cents of its income on food, compared with 25 cents in 1913.

Barts Drop Two Games In A Row

The St. Paul Barts, who were undefeated in the first round of the playoffs, dropped two games in a row, losing to the Lloydminster B's and the Calgary B's.

Councillors Sworn In; Carl Zarowny Reeve

County Council Tackles New Year's Business. Back at work in the County Council today were the new councillors sworn in last night. From left to right: Albert Chaudhary, Division 6; Mike Grehal, Secretary-Treasurer; Carl Zarowny, Reeve; Division 1; Bob Smith, Division 2; John Brown, Division 3; Bob Smith, Division 4; and John Brown, Division 5.

R. Cote Is Deputy Elect

R. Cote was elected deputy reeve of the County of St. Paul at a meeting of the council today. He defeated the incumbent, J. Brown, by a vote of 10 to 8.

OTJ Plans Winter Carnival

The Ottawa-Journal (OTJ) is planning a winter carnival for the young people of the town. The carnival will be held on Saturday, January 16th, and will include a variety of games and activities.

Juveniles Off To Good Start

The St. Paul juveniles have had a good start to their season, winning their first two games. They are now looking forward to a third win.

Course Stated

The St. Paul Municipal Council has decided on a course of action for the new year. The council will be meeting regularly to discuss the progress of the town's development.

NEW COUNCILLORS SWORN IN

Mike Grehal on the right administered oath of office to two councillors of the County of St. Paul who took their oaths at the first meeting of the year Monday. They are, right to left, John Brown, Albert Chaudhary, and Bob Smith.

Ayotte Wins Baby Derby

The stork was a busy carrier in and around New Year's at St. Theresa's Hospital delivering two babies. The first was a boy, and the second was a girl. Both babies were healthy and are now in good health.

Polio Vaccine Program On

The Oral Polio Vaccine (OPV) campaign has resumed in the North Eastern Alberta Health Unit. The campaign is aimed at reducing the incidence of polio in the region. Parents are encouraged to have their children vaccinated.

Children's On Display

The St. Paul Art Club is displaying a collection of children's art. The display is open to the public and will run until the end of the month. The children's art is a testament to their creativity and talent.

THANKS

To the kind people who have helped us in our time of need. Your support and generosity have made a difference in our lives. We are grateful to you all.

FIRST BORN ON NEW YEAR'S IS FIRST CHILD. Mrs. Loretta Ayotte of St. Paul proudly holds her new son, the first born on New Year's Day at St. Theresa's Hospital. It arrived at 10:13 a.m. and weighed 7 pounds 11 ounces. Congratulations to Mr. and Mrs. Loretta Ayotte.

Card of Thanks

We wish to express our sincere thanks to all who have helped us in our time of need. Your support and generosity have made a difference in our lives. We are grateful to you all.

Curting For High School

The St. Paul Curting Club is holding a fundraising event for the high school. The event will be held on Saturday, January 16th, and will include a variety of games and activities.

Hi-C Party Held

A Hi-C party was held at the St. Paul Curting Club. The party was a success and raised a large amount of money for the high school. The club is grateful to all who attended.

Let's Be Sports

One of the executive of the St. Paul Canadians Juveniles informed us that the collection at the hockey game Sunday afternoon was very poor.

In spite of the cold and the holidays, there was a very large crowd in attendance, but compared to one a third that size which brought in nearly \$100.00 this game produced the patty sum of \$33.00.

St. Paul this year, has put together a very impressive Juvenile Club judging by the record to date. They play a very interesting brand of hockey. If it is worth \$1.00 during the week, it should be worth the same thing on Sunday afternoon. People should not take advantage of a technician in the Lord's Day. As to deprive these young hockey players and the management the rights to keep alive. Without money it is pretty hard to operate.

Political Scandal

Prime Minister Pearson's prestige throughout Canada has suffered severely because he failed to inform the House of Commons as soon as he might have that he had reported to him the allegation of a bribe offer to Montreal lawyer Pierre Lacomte. The Toronto Star, which has the past been unfriendly to Mr. Pearson personally, said on December 18, "Up to now, whatever other criticisms Pearson himself did not appear to be guilty of anything more serious than his own judgment and candor have come under a cloud."

Scandals of a political nature in Canada in the past have been fortunately rare, although most people will remember the Beauchamp affair, the customs scandal. The latter was overshadowed politically by the Bingham incident, which was exploited with great skill by Mr. King.

A scandal put Sir John A. MacDonald out of office in 1874 for four years.

Political scandal involving Mafia is more serious than anything else except treason. It can be readily understood that anyone involved, innocently or not, could be fearful of even his life. The history of the Mafia has recently been given in detail by a United States publication. The outbreath of that organization, that secret society of men of "men of respect," is difficult to believe.

Tax Sharing

Evil of tax sharing was attacked recently by Dr. Kenneth Eaton, formerly an assistant deputy minister of Finance. He points out that at every federal-provincial conference, Ottawa gets talked out of more and more tax space for the provinces. He thinks that the provinces have as much scope for taxing as the dominion and that "any statement that the contrary is nonsense." Dr. Eaton thinks that the Canadian tax system was unsurpassed until the dealing began in recent years between Ottawa and the provincial governments.

Insurance

Car insurance continues to rise, due mainly, of course, to the fact that there are more vehicular accidents. But insurance companies' costs might rise so rapidly if it were not for the proclivity of the companies to settle rather than take a case to court. Settlement of cases that are promoted by people who should not get an easy settlement is one encouraging false claim. One of the largest public utility firms on this continent has a rigid policy of settling no claim. This may be unusual. They may be going to the other extreme. But automatic settlement is not always fair to the buyer of automobile insurance.

1964 Look At Site Of Fair

The site of the 1964 World Fair, which is to be held in St. Paul, Alberta, is being developed by the St. Paul Development Corporation. The site is located on the south shore of Lake St. Mary, and is being developed into a large recreational area. The site is being developed into a large recreational area, and is being developed into a large recreational area.

ST. PAUL, LOST IN THE FOG AS COLD SOCKS TOWN IN

A picture for the distance would normally bring out the Town of M. Pm. dinary. But Tuesday it was completely lost in the fog as the damp road trapped fumes from chimneys and exhausts of cars in the street. The fog was so thick that it was impossible to see the trees and the houses in the distance. The fog was so thick that it was impossible to see the trees and the houses in the distance. THURSDAY FEBRUARY 18 1965

Torch Is Falling

There is further evidence of the incipient failure of democracy. The House of Commons rejected Government members present, and added Remembrance Day to an official list of holidays for government servants and for workers who come under the jurisdiction of the federal government.

For government servants this would make still another statutory holiday. In addition government servants get three weeks' holidays after a brief period in employment and enough sick leave for recuperation from all the ills known to man or woman.

This is not to say that all government servants are lazy and refuse to do any more work than they must. There is a core of competent, efficient, conscientious government employees without whom the country could not function. But there are others, and it is feared that they are in the majority, who are in the government service only for the sake of the pay cheque. To these the word "service" is something that is a question of a dictionary. And too many of the vastness the public appear to think that service is a term that is a public which is a question of a dictionary. And too many of the vastness the public appear to think that service is a term that is a public which is a question of a dictionary.

It is assumed that if all these holidays become a fact, and it is highly probable that they will become a fact, more overtime will have to be paid to those who serve the public at border points and posts in the post office. Or does it mean that the post offices across the land will be closed on still another statutory holiday.

There was a time when there was a postal delivery on Christmas Day.

There needs to be education of government employees to show them that they have their jobs because they are supposed to serve the public.

Why should there be a holiday on a remembrance day of the fact that men and women died to preserve Canada and to enable those who lived and those who are to be born — help Canada progress? Can a country go ahead by being idle?

The Opposition parties in Parliament were not on this occasion holding aloft the torch.

Cheaper Cars

Speculation about the trend of car prices in Canada and rumors of price drops soon are obscuring the real purposes of the new Canadian-U.S. agreement on auto and auto parts production and could temporarily upset the car sales picture here. Although the 17½% to 25% tariff on autos and auto parts from the U.S. was dropped at the beginning, there is to be no drop in the price of North American autos in Canada — not even those imported fully assembled from the U.S. — for some time to come, auto industry officials advise.

In fact, don't look for any real action on prices until 1968, the year the effects of the plan should first be felt. The U.S. auto companies, through their Canadian subsidiaries, expect to use the money saved on the tariff — about \$50 million annually — by channeling it into new facilities in Canada. This is one of the sweeteners the Canadian government used to get the necessary auto company commitments to get the plan. The Canadian government has, in carefully worded statements, suggested that price drops are highly unlikely in the next two or three years while maintaining that after that Canadian and U.S. auto prices should move closer together.

**Personal photograph that  
unifies your character**

Make your photograph the single public image—a statement—of yourself as a representative of your firm. This is especially important, made pivotal in importance as a requirement in public relations, where origins and character is essential to public opinion, image, attitude, both character and reputation.

Investment with us costs . . . is an investment that will add returns.

# March - Good Seed Month

## Don't Risk Poor Yield With Poor Seed

### Good Seed Is A Good Buy...

To get the most from his seed, a farmer must select the best seed available. This is especially true in the case of legumes and forage crops. These crops are highly susceptible to disease and insects, and the seed must be of the highest quality to ensure a good yield. The seed must also be of the right variety for the soil and climate. The seed must be of the right size and shape, and it must be free of all diseases and insects. The seed must be of the right color and texture, and it must be of the right weight. The seed must be of the right shape and size, and it must be free of all diseases and insects. The seed must be of the right color and texture, and it must be of the right weight.

### YOUR AGRICULTURAL SERVICE BOARD

INSISTS THAT

## GOOD CLEAN SEED

is a must in this age of increased farming costs

When high quality seed is used, a high degree of freedom from disease and weed seeds is assured and you can look for high germination and uniformity of plant maturity because of the truefulness of variety. Please remember the seed you sow is the most important factor in your whole crop program.

Your Agricultural Service Board is actively involved in a program to reduce the weed population in the County of St. Paul. You can do your share by using clean seed.

St. Paul Agricultural Service Board Members:  
R. Chisholm, Chairman; Bob Smith, Cashier; A. L. Potholite and John J. Jernigan, Secretary; Dennis Bessler, District Agriculturalist; Steve Strzemecki, Field Supervisor; M. T. Condit, Secretary-Treasurer.

### Now Program Now In Effect

#### Canadian Seed Growers Assn.

The Canadian Seed Growers Association (C.S.G.A.) has announced a new program for the production of certified seed. This program is designed to ensure that the seed is of the highest quality and is free of all diseases and insects. The program is based on the principle of self-purification, which means that the seed is grown in a field that is free of all diseases and insects. The seed is then harvested and stored in a clean, dry place. The seed is then tested for purity and germination, and it is found to be of the highest quality and is free of all diseases and insects.

It is especially important to get your seed early in the year. This means that you should get your seed as early as possible. This is because the seed is of the highest quality and is free of all diseases and insects. The seed is then tested for purity and germination, and it is found to be of the highest quality and is free of all diseases and insects.

# Centennial Caravan To Visit St. Paul

This week Mayor James Van Buren received a communication from the Provincial Centennial Association that St. Paul had been chosen as one of the sites for exhibition of one of the eight Centennial Caravans which will be made available through the Federal Centennial Commission in 1967.

Each Caravan is composed of eight travel trailers and trailers, each of which will contain a condensed story of Canada and the region will be a historic site.

The exhibit will depict the story of Canada from the first settlers on to the present. The exhibit will be a historical and educational exhibit.

Mayor John Van Buren is personally planning to receive several other exhibits which might be available in the Centennial Commission. The exhibit will be a historical and educational exhibit.

Caravan has requirements: 1. An open area of at least 100 x 100 ft. 2. The area should be paved. 3. There should be an electric supply. 4. The area should be protected by a fence. 5. The area should be well lit. 6. The area should be well watered. 7. There should be adequate parking. 8. The area should be well maintained.

## Successful banking begins with a savings account

By Marion Hyslop

### Successful banking begins with a savings account

Like almost everyone else, you use your hard-earned bank cash as a safe and handy place to build the savings reserve that is so important to your financial future. In doing so, you do more than build a solid foundation for financial plans. You are building a valuable banking relationship and helping to establish your credit. And as you get to know the manager and staff — as you use other banking services to meet personal or business needs — your banking continues to become even more useful to you. And it all starts with a savings account!

THE CHARTERED BANK OF CANADA

Through 5450 branches, all across Canada, the Chartered Bank brings full-range banking within the reach of everyone.

## INDIANS DISAPPOINTED

Indians from Saddle Lake and guest performers from as far as Frog Lake and Saskatchewan reserves expressed disappointment at the attendance for their festival in St. Paul last week.

These performers in the past have been held mostly on the reserves where the people turn out in mass to enjoy native Indian dancing and music.

Anyone who has seen the colorful costumes displayed and been swayed by the beat of the tom, toms will readily admit it is an invigorating and intoxicating spectacle.

Why the people of St. Paul did not turn out in hard to count. (We were also unable to be present due to a press break down which kept us up all night. Our apologies.)

However, with the centennial celebrations in the offing and all the publicity and stimulation which has come out of St. Paul, we believe Indian performances of this nature are ready-made to remind us of the past of this country and the part the Indian played in its history as the first citizens of its plains and foothills areas.

It might be a good thing to incorporate them in the scheme and provide more encouragement. The Indian has been trying to break the shell of his captivity for many years and now that he is emerging as a self-sufficient entity, it is essential that he receive support.

The Indian Dance is part of our heritage; it means much to the Indian trying to express his individuality through them; through promotions entirely of his own designs, we see sure signs of maturity and a desire to be accepted.

We have done business with the promoters of this festival. They are dedicated and sincere in their efforts, and should receive due recognition.

## SAFE VEHICLE EASES INTO

"The motorist of today has enough worries as he drives without adding concern about his claimed K. N. Marriot, vice-chairman of the Canadian Highway Safety Council, the vehicle safety committee. Mr. Marriot, a service supervisor with Shell Canada Ltd., Toronto, urged every motorist to have his car thoroughly checked by a reliable technician before venturing into the approaching summer conditions on the highway.

He referred to the Council's April-May car-check campaign and said it was a time to make certain every detail of every vehicle was safe and sound. "After putting a car through the rigours of a Canadian winter," said Mr. Marriot, "the owner has a responsibility to his passengers, to himself and to other motorists to be certain his car is in safe condition. Don't wait until the accident occurs."

## PEARSON SOUNDS HIS TRUMPET

"Pearson sounds his trumpet" is the way the Post sums up the speech from the Throne. The paper seems to think there is an uncanny resemblance to the speeches and stories that have been coming out of Washington. For instance, the war on poverty, the farm help programme, the Canadian equivalent of Mr. Kennedy's Youth Peace Corps and so on. "An overflowing measure, until the mind reels before the impact of sheer verbiage." It is suggested that the speech from the Throne is a "clever plot to keep Parliament so up to the ears in work" that everybody will forget about an election for the time being.

## GAS FRANCHISE UNCHANGED

Edmonton was looking into the question of taking over as a municipal enterprise the gas franchises held by a private company. But a professor and a firm of consulting engineers have come up with figures indicating strongly that the private company is doing its job reasonably well and that the cost of the city's taking it over would be very high. It is also noted that the Saskatchewan government has sold its service to a private enterprise. The St. Catharines Standard notes that "realistic appraisal must have shown beyond a doubt that private operation is in the best interest of the public."

This is Sue

## She is mentally retarded.

Sue can't learn things... can't do things... the way other kiddies can. Even when she's twenty, thirty, or forty years old she will have the mental age of a child of two.

There are more than 600,000 mentally retarded in Canada. In fact, one child in every thirty is born mentally retarded. These children need help.

Our local Association for Retarded Children is dedicated to giving all who need it the special care and training which can help them grow into useful, happy citizens. If you would like to support this vital work, please send your cheque.

Plant a seed of hope for Canada's retarded children.

### Voters' Association Outlines Platform

In answer to your editorial outlining the St. Paul Voters' Association, we wish to say that the principles that we stand for are the same as those that we stand for in St. Paul. We are not a party, we are a group of people who are interested in the welfare of our community. We are not a party, we are a group of people who are interested in the welfare of our community. We are not a party, we are a group of people who are interested in the welfare of our community.

Therefore we have outlined a platform of action, which we are sure will be of help to the voters of St. Paul. ## Road Grants

We have received news of road appropriations up until now with a sense of disappointment.

A good number of allocations have been made in the district including contingency grants for roads in the County front Leland to Elk Point, Spedden to Elk Point, and Elk Point to Elk Point.

Other grants include Highway 28A from Ashmont to Elk Point, Junction 41 to the Elk Point bridge. We have yet to hear anything about the reconstruction of 28 east from the Dog Rump Creek to Junction 41 which is in bad shape and should be rebuilt completely. No sign of first coat or mix plant movement on the portion which was rebuilt during the last two years.

We're still hoping that there is more news to come and it will be better. Especially after the strong representation the St. Paul Chamber of Commerce made regarding the east road and the County road north to St. Vincent last year.

## Kind Word Does Make Difference

A newcomer to St. Paul, accepting an introduction at the Chamber of Commerce, recently acknowledged the recognition and added a few grateful words of his own.

He was deeply impressed with the warm reception he had received before and looking to St. Paul. A firm had written in advance expressing anticipation at his coming and offering help. When he arrived and checked at one of the local hotels, the clerk politely welcomed him and hoped he would find St. Paul congenial to live in.

He has, so far, with such a warm welcome and this might be taken as an example by all firms and the people of St. Paul.

With the tourist season opening, we should make a special effort to be pleasant to strangers, helpful when they ask for information and direction, emphasizing the good points of the town and district where they can find the relaxation they are looking for.

If we all do, rest assured they will come back again next year and bring their friends along.

## The Budget

Mr. Walter Gordon's third budget, orthodox in some respects, doesn't do much for the economy.

Reduction in income tax rate has been welcomed by individuals, but there is no effort to deal with one of the great consumer taxes, otherwise known as the corporation tax. Corporations, as has been pointed out by people outside the department of finance, do not pay taxes. A corporation that remains solvent must pass on to consumers all its taxes.

It is argued that the budget is a pre-election one. This is not necessarily so. There are still things that could have been done if an election were certain. Some goodies are saved for a later party.

Federal sales tax, which affects both industries manufacturing for export and those supplying the domestic market, is not changed, as it should have been. The sales tax on drugs is a severe burden; there is a half-proportion of removal. There is also particular need to make it possible for Canadian manufacturers to buy their production equipment at costs enabling them to compete with imports and with other countries in the export field.

JOHN W. FISHER, COMMISSIONER, CENTENNIAL COMMISSION

A Centennial project collection of famous persons was created a few months ago by the Centennial Commission. It is only appropriate that the Centennial Commission should have a collection of famous persons. It is only appropriate that the Centennial Commission should have a collection of famous persons. ## REPORTS FROM PARLIAMENT HILL

On the morning of the 11th, the House of Commons met at 10:30 a.m. for the 11th day of the 11th session. The House was called to order by the Speaker, Mr. J. L. ...

**PROVINCE OF ALBERTA**

**"In Alberta  
there is!"**

Alberta's Department of Highways has built 26 eleven-lane interchanges and four are now under construction, six more are planned for the next three years. Elimination of at-grade crossings is part of Alberta's policy for building better, safer roads.

Alberta motorists are among the least taxed in Canada, and yet they enjoy almost 100,000 miles of better road travel facilities - more than almost any other group of Canadians.

Good, safe highways - another feature that makes Alberta A-1 Place to Live.
